

ANNUAL REPORT 2007

PROFILE

CMGI, Inc. (Nasdaq: CMGI), operates two core businesses that support technology-driven companies in distinct ways. Through its subsidiary, ModusLink, CMGI is a leader in global supply chain business process outsourcing, providing award-winning, globally integrated supply chain management services and solutions that help businesses to market, sell and distribute their products around the world more competitively. ModusLink's innovative approach to global supply chain planning and execution helps improve time to market, process efficiency and customer satisfaction; while lowering capital investment, risk and total cost. In addition, CMGI's venture capital business, @Ventures, provides venture capital to early-stage technology companies, with a primary focus on investments in the clean technology sector. For additional information about CMGI, visit www.cmgi.com.

ModusLink Corporation is a leading provider of global, end-to-end supply chain management solutions. The company provides technology clients in the software, computing, consumer electronics, storage and communications markets with tailored global supply chain solutions that improve time-to-market, productivity and customer satisfaction; while reducing risk and cost. ModusLink's services include consulting and planning, sourcing and supply base management, manufacturing and product configuration, fulfillment and channel management, e-Business and the complete range of aftermarket services, including reverse logistics and asset disposition. With numerous facilities strategically located in 12 different countries throughout the key economic regions of the Americas, Europe and Asia, ModusLink has the largest global footprint in its industry. The company has its headquarters in Waltham, Massachusetts. For additional information, visit www.moduslink.com.

@Ventures is CMGI's venture capital business, providing financial and intellectual capital resources to early-stage technology companies. Formed in 1995, @Ventures has funded more than 75 companies across a broad set of technology sectors. The exclusive focus of @Ventures V, the firm's fifth fund formed in 2004, is on investments in the cleantech sector, including investments in alternative energy, energy storage and efficiency, advanced materials, and water purification. The fund's mission—to identify, invest in, and help build high value clean technology companies—is realized through a demonstrated commitment to providing valuable expertise and financial resources, in partnership with the firm's portfolio companies. The firm's leadership team has many years of operations experience and industry contacts, enabling the firm to provide mentoring assistance and strategic and tactical advice that can help early-stage companies achieve their full potential. @Ventures has offices in Wilmington, Massachusetts and Menlo Park, California. For more information, visit www.ventures.com.

November 1, 2007

Dear Fellow Stockholders:

Fiscal 2007 was a year of meaningful progress for CMGI as we continued executing the transformation of our business to a market leading provider of supply chain services. We moved toward our primary objectives and reported our third consecutive profitable year, while adding more than \$50 million to our net cash position. Looking forward, the company is well positioned as we enter the new fiscal year.

Our financial results showed signs of our overall progress compared with last year. Revenue for fiscal 2007 was \$1.14 billion, which was comparable to fiscal 2006. As expected, our revenue for the year was affected by select discontinued client programs, which were offset by strong revenue growth in other parts of our business. This change in client work mix within our business contributed to an improvement in gross margin as a percent of revenue to 11.5% from 10.3% in fiscal 2006.

Operating income for the full year improved to \$14.8 million compared to operating income of \$585 thousand in fiscal 2006. Net income for the full year more than tripled to \$49.4 million from \$14.9 million in fiscal 2006 and our net cash improved to nearly \$260 million at the end of our fiscal year 2007. Our growth in profitability and cash generation was due to the progress we are making to increase efficiencies in our business while continuing to make the necessary investments for the long-term.

CMGI is in the middle innings of executing significant change to transform the company into a leader in supply chain services through our ModusLink business. During the year, our progress was considerable in several areas:

- ModusLink built upon its strong base of clients in the computing and software markets by continuing to focus on our new target vertical markets of storage, communications and consumer electronics, which we believe will provide higher growth and higher margin opportunities. Of the 118 new engagements secured this year, which include multiple engagements from some clients, 52 came from our three new target markets. This compares to 90 new engagements secured during fiscal 2006, with 44 from our three new target markets.
- We continued to introduce new solutions that complement and expand our capabilities. During the year, ModusLink announced a line of new offerings tailored to help companies address supply chain challenges specific to the consumer electronics and storage markets. In addition, ModusLink introduced its new Gateway to Europe Solution, designed to help our clients and prospects rapidly establish a high-performing supply chain infrastructure in key geographic markets with minimal capital investment and risk.
- We made significant progress implementing a shared services model and we continued the investment in our infrastructure with the on-going implementation of an Enterprise Resource Planning platform. This important technology implementation will enable us to consolidate our data centers and run our business more efficiently, as well as give our global clients more visibility to the work we do for them across multiple regions and solution centers. Our facility in Singapore went live in early August 2007 and we have now implemented nine sites on the new system. Our ERP system is a key enabler for many of our other initiatives focused on driving cost efficiencies throughout our organization.
- From a business development standpoint, we made important decisions to strengthen our operations. We extended our global footprint with the acquisition of the remainder of our joint venture in Japan. By bringing the business under our direct control, we can effectively apply our best practices and leverage our infrastructure in this attractive market for supply chain services. Additionally, we created an executive position dedicated to reviewing and pursuing possible acquisition and strategic partnership opportunities for the future.

- In another critical step in our transformation strategy, we strengthened our management team. Key new hires to our executive leadership team were made at the CFO, CIO and President of Sales and Marketing positions. Our leadership team is focused on flawless execution and growth and I have never been more optimistic about our ability to execute our strategy and improving shareholder returns.

Looking forward, the market remains strong for our supply chain services and is driven by an increasing need for clients to deliver products to market in the most rapid and cost-efficient means possible. For many companies, an efficient supply chain is critical to their ability to compete in the fast-moving, short product life cycle market place. We're in a very dynamic global economy where savings from low cost materials and labor can be quickly offset by rising fuel and logistics costs. Through our global footprint and years of experience, we are helping clients manage their global supply chains efficiently and enabling them to stay competitive.

Although we are pleased with our progress, we are in a period of investing to strengthen our leadership position and improve our long-term financial performance. Fiscal 2008 will be an important transformational year for our supply chain business. Our core business strategy remains focused on increasing revenue in our target vertical markets, introducing higher margin new solutions, and making necessary investments to drive operational improvements, all of which will help us move the company closer to achieving our financial goals and improving value for our shareholders.

In addition to our supply chain business, CMGI's @Ventures portfolio continues to generate cash and we are encouraged by @Venture's new investments in the compelling clean technology marketplace. For fiscal 2007, proceeds from liquidity events in our @Ventures portfolio totaled approximately \$35.0 million and contributed to our strong financial performance this year. During the year, we made additional investments of \$11.2 million in new portfolio companies including 212 Resources (formerly H2Oil Recovery Services), Earthanol and Powerit Holdings. @Ventures continues to be well positioned to benefit from opportunities in the dynamic clean technology market due to its history, team knowledge of both venture investing and clean technology, and a track record of identifying successful early stage companies.

On behalf of our Board of Directors and the management team, I want to thank all of the employees at CMGI, ModusLink and @Ventures around the world for their continued commitment during fiscal 2007. Our employees continue to give a truly extraordinary effort to our company and I am grateful for their passion and continued hard work. Rarely have I seen such dedication to a company, and never have I seen such a sustained effort by so many people. We also want to thank our shareholders for your loyalty and continued support. All of us at CMGI remain committed to driving financial results that will yield strong improvements in shareholder value.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe", written over a large, loopy, handwritten "J" that forms a large loop on the left side.

This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words “believes,” “anticipates,” “plans,” “expects” and similar expressions are intended to identify forward-looking statements. Factors that could cause actual results to differ materially from those reflected in the forward-looking statements include, but are not limited to, those discussed in Item 1A of this report, “Risk Factors”, and elsewhere in this report. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management’s analysis, judgment, belief or expectation only as of the date hereof. We do not undertake any obligation to update forward-looking statements whether as a result of new information, future events or otherwise.

PART I

ITEM 1.— BUSINESS

Overview

CMGI, Inc. (together with its consolidated subsidiaries, “CMGI” or the “Company”), through its subsidiary, ModusLink Corporation (“ModusLink”), provides industry-leading end-to-end global supply chain management solutions that help businesses market, sell and distribute their products and services. ModusLink services technology-based clients in the computing, software, consumer electronics, storage and communications markets. In addition, CMGI’s venture capital business, @Ventures, invests in a variety of technology ventures. The Company previously operated under the name CMG Information Services, Inc. and was incorporated in Delaware in 1986. CMGI’s address is 1100 Winter Street, Suite 4600, Waltham, Massachusetts 02451.

CMGI’s business strategy in recent years has led to the development, acquisition and operation of majority-owned subsidiaries focused on supply chain management services, as well as the investment in emerging, innovative and promising technology companies.

Our operating structure is aligned along the Americas, Asia and Europe regions. Each of these regions has designated management teams with direct responsibility over the operations of the respective regions. As a result, we report three operating segments, Americas, Asia and Europe. In addition to our three operating segments, we report an Other category. The Other category represents corporate expenses consisting primarily of costs associated with certain corporate administrative functions such as legal and finance, which are not fully allocated to the Company’s subsidiary companies, administration costs related to our venture capital business and any residual results of operations from previously divested operations.

On April 2, 2007, ModusLink acquired full ownership of the joint venture through which it has operated in Japan. ModusLink previously had a 40% interest in the entity.

Certain segment information, including revenue, profit and asset information, is set forth in Note 5 of the accompanying notes to consolidated financial statements included in Item 8 below and in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in Item 7 below, and is incorporated herein by reference.

Products and Services

Supply Chain Management Services and Solutions

Through ModusLink, we provide end-to-end supply chain management services and solutions to the technology industry on a global scale. The services and solutions are designed to optimize the supply chain by helping companies improve time to market, productivity, and customer satisfaction while reducing risk and costs. Our clients include hardware manufacturers, software publishers, storage and consumer electronic device manufacturers, telecommunication carriers, broadband and wireless service providers and other companies that engage us to manage and perform the multiple business processes throughout the end-to-end supply chain. Our core capabilities are categorized as sourcing and supply base management, manufacturing and product configuration, fulfillment and distribution, e-Business, and aftermarket services such as reverse logistics and asset disposition. We are also a Microsoft Authorized Replicator, further enhancing our position as a valued supply chain services provider to leading technology hardware original equipment manufacturers (“OEMs”).

After many years of experience developing successful, custom solutions for clients in the technology markets, we have documented and standardized our best processes, technologies and operating methodologies and now offer them as part of an integrated line of market specific “Solutions Suites”. Each of the Solution Suites is comprised of several optimized “solution packages” designed to help clients manage a particular supply chain activity or challenge in their market efficiently and cost effectively. Specific Solution Suites have been developed for the computing, software, consumer electronics, storage and communications markets. Available solution packages include: Factory Supply, Optimized Product Configuration, E-Business, Reverse Logistics, Consumer Premises Equipment, Retail Direct, Service Parts, Software Manufacturing and Distribution, Accessories and Options, License Fulfillment, Content Load, and On Demand Manufacturing and Fulfillment.

Our solution packages are designed to help companies quickly, efficiently and cost-effectively bring their products to market, support customer service requirements and enter new geographic markets, where we have established operations and local market expertise.

Additionally, using our information technology systems and infrastructure, we manage the flow and use of information throughout the supply chain. ModusLink’s robust technology infrastructure serves as the backbone of a client’s fully integrated global supply chain solution. We offer a secure and redundant network environment to ensure our clients’ data and information is

secure and accurate. We work with clients to integrate data, tools and applications to create a technology solution that meets our clients' business needs and improves management of the global supply chain.

We are in the process of upgrading and further integrating our Enterprise Resource Planning ("ERP") system. Our infrastructure spans critical aspects of supply chain processes from beginning to end and serves as the foundation for the design, integration and ongoing management of a client's global supply chain. Our new ERP system, based on SAP, is designed to provide the visibility and control needed for better decision making, more rapid response to global market dynamics and effective asset utilization across services and geographies. Our new operating infrastructure is expected to leverage an integrated global systems platform, standardized process execution, strategic global management, industry expertise and local market knowledge to provide clients with more effective global operations management.

Our global operational footprint consists of an integrated network of 34 strategically located facilities in 12 countries, including numerous sites throughout North America, Europe and Asia. ModusLink's regionally optimized and highly scalable solution centers are designed to provide the flexibility to deliver and configure products in-region, close to the customer or in low-cost regions, such as China, Eastern Europe and Mexico for maximum efficiency and cost-effectiveness.

Sales and Marketing

ModusLink's sales and marketing staff is strategically and globally aligned to support the development, marketing and sale of our supply chain management services and solutions worldwide.

Our marketing efforts are focused on developing greater awareness and brand recognition among our target client base, with an emphasis on companies within our key vertical markets of computing, software, storage, consumer electronics and communications. We market our services and solutions through our website, public relations, advertising and tradeshow campaigns and are developing a wide range of collateral materials and sales tools to support these efforts. Additionally, our global product marketing staff is focused on the ongoing development, positioning and marketing of new services and solutions, including vertical market supply chain solutions and geographic "go-to-market" solutions. Our product marketing staff also identifies new opportunities and leads within these markets.

ModusLink sells its services and solutions on a global scale, through the direct sales channel. Our strategically aligned, global sales staff creates new opportunities and cultivates leads in all of our key regions throughout North America, Europe and Asia as well as within our target vertical markets around the world. Our sales staff helps us to further diversify our client base.

Competition

The markets for the supply chain management and marketing distribution service offerings provided by ModusLink are very competitive. As an end-to-end solutions provider with service offerings covering a range of supply chain operations and activities across the globe, ModusLink competes with a number of different vendors, both global and regional, in a number of different service areas. We expect the intensity of competition to continue to increase from both global and regional competitors. A failure to maintain and enhance our competitive position, including the expansion into geographical areas where we currently have no presence, will limit our ability to maintain and increase market share, which could result in serious harm to our business. Increased competition may also result in price reductions, reduced gross margins and loss of market share. We compete in the supply chain management market on the basis of quality, performance, service levels, global capabilities, technology, customized market specific solutions, operational efficiency and price.

Some of our competitors have substantially greater financial, infrastructure, personnel, and other resources than we do. Furthermore, some of our competitors have well established, large and experienced marketing and sales capabilities and greater name recognition, including well established relationships with our current and potential clients. As a result, our competitors may be in a stronger position to respond quickly to new or emerging technologies and changes in client requirements. They may also develop and promote their services more effectively than we do and may have more strategic geographical locations in low cost production areas of the world. Also, we may lose potential clients to competitors for various reasons, including the ability or willingness of competitors to offer lower prices and other incentives or concessions that we cannot or will not match. There can be no assurance that our competitors will not develop products and services that are superior to ours or that achieve greater market acceptance than our offerings.

Clients

A limited number of clients account for substantially all of our consolidated net revenue. Significant clients' information is set forth under the heading "Major Clients and Concentration of Credit Risk" in Note 2 of the accompanying notes to consolidated financial statements included in Item 8 below and in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 below, and is incorporated herein by reference.

We currently do not have any agreements that obligate any client to buy a minimum amount of products or services from CMGI or any subsidiary, or to designate CMGI or any subsidiary as its sole supplier of any particular products or services. The loss of a significant amount of business with any key client could have a material adverse effect on CMGI. We believe that we will continue to derive the vast majority of our consolidated operating revenue from sales to a small number of clients. There can be no assurance that revenue from key clients will not decline in future periods.

We sell our products and services to our clients primarily on a purchase order basis rather than pursuant to contracts with minimum purchase requirements. Consequently, sales are subject to demand variability by such clients and we purchase and maintain adequate levels of inventory in order to meet client needs rapidly and on a timely basis. We have no guaranteed price, quantity or delivery agreements with our suppliers. Because of the diversity of our products and services, as well as the wide geographic dispersion of our facilities, we use numerous sources for the wide variety of raw materials needed for our operations. We have not been and do not expect to be adversely affected by an inability to obtain raw materials.

Intellectual Property

We rely upon a combination of patent, trade secret, copyright and trademark laws to protect our intellectual property. From time to time, we develop new trade secrets and other intellectual property or obtain intellectual property through acquisition activities. Our business is not substantially dependent on any single or group of related patents, trademarks, copyrights or licenses.

Venture Capital

Through our venture capital business, @Ventures, we maintain interests in several venture capital funds; CMG@Ventures III, LLC (“CMG@Ventures III”); CMG@Ventures Expansion, LLC (“CMG@Ventures Expansion”); CMGI@Ventures IV, LLC (“CMGI@Ventures IV”); and @Ventures V, LLC (“@Ventures V”). These venture capital funds invest in emerging, innovative and promising technology companies. In addition, we previously maintained interests in CMG@Ventures I, LLC (“CMG@Ventures I”), which was dissolved on July 31, 2006, and CMG@Ventures II, LLC (“CMG@Ventures II”) which was dissolved on July 31, 2007. Prior to its dissolution, we owned 100% of the capital of CMG@Ventures II and were entitled to approximately 80% of its cumulative net profits.

The @Ventures III venture capital funds (“@Ventures III Fund”) were formed in August 1998. The @Ventures III Fund secured capital commitments from outside investors and CMGI, to be invested in emerging Internet and technology companies. The @Ventures III Fund consists of four entities, which co-invest in each investment made by the @Ventures III Fund. Approximately 78% of each investment made by the @Ventures III Fund is made by two entities in which CMGI does not have a direct ownership interest, but CMGI is entitled to approximately 0.1% of the capital of each entity as a result of its ownership of an approximately 10% interest in the general partner of each of such entities, @Ventures Partners, III, LLC (“@Ventures Partners III”). CMG@Ventures III co-invests approximately 20% of the total amount invested in each @Ventures III Fund portfolio company investment. CMGI owns 100% of the capital and is entitled to approximately 80% of the cumulative net capital gains realized by CMG@Ventures III. @Ventures Partners III is entitled to the remaining 20% of the cumulative net capital gains realized by CMG@Ventures III. The remaining 2% invested in each @Ventures III Fund investment is provided by a fourth entity in which CMGI has no interest. During fiscal 2000, CMGI formed additional venture capital fund entities to provide follow-on financing to @Ventures III Fund portfolio companies. These “expansion funds” have a structure that is substantially identical to the @Ventures III Fund, and CMGI’s interests in such funds are comparable to its interests in the @Ventures III Fund.

CMGI owns 100% of the capital and is entitled to a percentage (ranging from approximately 80% to approximately 92.5%) of the net profits realized by CMGI@Ventures IV on each of its investments.

During fiscal 2004, CMGI formed @Ventures V. CMGI owns 100% of the capital and is entitled to a percentage ranging from approximately 91% to approximately 92% of the net profits realized by @Ventures V. @Ventures V’s investment activity is focused in the clean technology area.

Approximately \$11.2 million was invested by @Ventures during the year ended July 31, 2007. In addition, we received distributions of approximately \$35.0 million from the acquisition by third parties of certain of @Ventures portfolio companies during fiscal 2007.

As of July 31, 2007, @Ventures held investments in 13 portfolio companies, although investments in four of these companies are nominal and not viewed as material. From time to time, we may make new and follow-on venture capital investments and from time to time we may receive distributions from the @Ventures entities as a result of our previous investments. As of July 31, 2007, we were not obligated to fund any new or follow-on investments.

Employees

At August 31, 2007, we employed approximately 3,200 persons on a full-time basis. Our subsidiaries in Mexico are parties to collective bargaining agreements covering approximately 40 employees. Our subsidiaries in France and The Netherlands are parties to collective bargaining agreements covering approximately 500 employees pursuant to and in accordance with applicable law that provide representation for all employees of those subsidiaries. Approximately 140 of the employees of our Ireland subsidiaries are members of labor unions. We consider our employee relations to be good. From time to time we hire project-based, temporary workers based on our client needs and seasonality of our business and at times the number of such workers may approximate the number of our full time employees.

Our Corporate Information

We make our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports available through our website, free of charge, as soon as reasonably practicable after we file such material with, or furnish it to the Securities and Exchange Commission. Our internet address is <http://www.cmgi.com>. The contents of our website are not part of this annual report on Form 10-K, and our internet address is included in this document as an inactive textual reference only.

ITEM 1A.— RISK FACTORS

We operate in a rapidly changing environment that involves a number of risks, some of which are beyond our control. Forward-looking statements in this document and those we make from time to time through our senior management are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements concerning the expected future revenues or earnings or concerning projected plans, performance, or development of products and services, as well as other estimates related to future operations are necessarily only estimates of future results. We cannot assure you that actual results will not materially differ from expectations. Forward-looking statements represent our current expectations and are inherently uncertain. We do not undertake any obligation to update forward-looking statements. Factors that could cause actual results to differ materially from results anticipated in forward-looking statements include, but are not limited to, the following:

We derive a substantial portion of our revenue from a small number of clients and adverse industry trends or the loss of any of those clients could significantly damage our business.

We derive a substantial portion of our revenue by providing supply chain management services to a small number of clients. Our business and future growth will continue to depend in large part on the industry trend towards outsourcing supply chain management and other business processes. If this trend does not continue or declines, demand for our supply chain management services would decline and our financial results could suffer.

In addition, the loss of any one or more of our key clients would cause our revenues to decline. For the year ended July 31, 2007, sales to one client, Hewlett-Packard, accounted for approximately 31% of our consolidated net revenue. During the year ended July 31, 2007, five clients accounted for approximately 62% of our net revenues. In fiscal 2006, sales to Kodak accounted for 11% of our consolidated net revenue. In fiscal 2007, we have recognized lower annual revenues from Kodak as a result of changes to certain programs that we executed on their behalf in fiscal 2006. Sales to Kodak declined by \$68.6 million from \$126.0 million in fiscal 2006 to \$57.4 million in fiscal 2007. In addition, as previously announced, in February 2007, we were informed that a business unit of Hewlett-Packard intended to migrate away from ModusLink a program which accounts for approximately \$100.0 million of annual revenue. The operating income associated with this program is estimated at less than \$3.0 million per year. Volumes associated with this program declined in the fourth quarter of fiscal 2007 and did not have a significant impact on the results of operations for fiscal 2007. We expect to continue to derive the vast majority of our operating revenue from sales to a small number of key clients. We do not have any agreements which obligate any client to buy a minimum amount of products or services. We do not have any agreements which designate us as the sole supplier of any particular products or services. The further loss of business with Hewlett-Packard, or any other key clients, or a decision by any one of our key clients to significantly change or reduce the services we provide, could have a material adverse effect on our business. We cannot assure you that our revenue from key clients will not decline in future periods.

In addition, ModusLink has been designated as an authorized replicator for Microsoft. This designation provides a license to replicate Microsoft software products and documentation for clients who want to bundle licensed software with their hardware products. This designation is annually renewable at Microsoft's discretion. A failure to maintain authorized replicator status could result in a reduction in our business and our revenues.

We may have difficulty achieving and sustaining operating profitability, and if we deplete our working capital balances, our business will be materially and adversely affected.

For the fiscal year ended July 31, 2007, we reported operating income of approximately \$14.8 million. While we have reported operating profitability in recent past periods, as a result of a variety of factors discussed in this report, our revenue for a particular quarter is difficult to predict and may fluctuate significantly. We anticipate that we will continue to incur significant operating expenses in the future, including significant costs of revenue and general and administrative expenses. Therefore, we cannot assure you that we will sustain operating profitability in the future. We also have significant commitments and contingencies, including borrowings under a revolving line of credit, real estate leases, continuing stadium sponsorship obligations, and inventory purchase obligations. We may also use significant amounts of cash to grow and expand our operations, including through additional acquisitions. At July 31, 2007, we had a consolidated cash, cash equivalents, marketable securities and short-term investment balance of approximately \$282.3 million and fixed contractual obligations of approximately \$187.4 million. If we are unable to sustain operating profitability, we risk depleting our working capital balances and our business will be materially adversely affected.

Our quarterly results may fluctuate significantly.

Our operating results have fluctuated widely on a quarterly basis during the last several years. We expect that we may experience significant fluctuations in future quarterly operating results. Many factors, some of which are beyond our control, have contributed to these quarterly fluctuations in the past and may continue to contribute to fluctuations. Therefore, operating results for future periods are difficult to predict, and prior results are not necessarily indicative of results to be expected in future periods. These factors include:

- how well we execute on our strategy and operating plans;
- successful implementation of our ERP system;
- implementation of our strategic initiatives and achievement of expected results of these initiatives;
- demand for our products and services;
- timing of new product introductions or software releases by our clients or their competitors;
- payment of costs associated with our acquisitions, sales of assets and investments;
- timing of sales of assets and marketable securities;
- market acceptance of new products and services;
- seasonality;
- temporary shortages in supply from vendors;
- charges for impairment of long-lived assets, including goodwill and/or restructuring in future periods;
- political instability or natural disasters in the countries in which we operate;
- specific economic conditions in the industries in which we compete;
- general economic conditions;
- actual events, circumstances, outcomes, and amounts differing from judgments, assumptions, and estimates reflected in our accompanying consolidated financial statements; and
- changes in accounting rules.

We believe that period-to-period comparisons of our results of operations will not necessarily be meaningful or indicative of our future performance. In some fiscal quarters our operating results may be below the expectations of securities analysts and investors, which may cause the price of our common stock to decline.

Because our contracts do not contain minimum purchase requirements and we sell primarily on a purchase order basis, we are subject to uncertainties and variability in demand by clients, which could decrease revenue and adversely affect our financial results.

Our contracts do not contain minimum purchase requirements and we sell primarily on a purchase order basis. Therefore, our sales are subject to demand variability by our supply chain management clients, which is difficult to predict and has fluctuated and may continue to fluctuate significantly. The level and timing of orders placed by these clients vary for a variety of reasons, including

seasonal buying by end-users, the introduction of new technologies and general economic conditions. If we are unable to anticipate and respond to the demands of our supply chain management clients, we may lose clients because we have an inadequate supply of products, or we may have excess inventory, either of which may harm our business, financial position and operating results.

We must maintain adequate levels of inventory in our supply chain management business in order to meet client needs, which present risks to our financial position and operating results.

We often purchase and maintain adequate levels of inventory in our supply chain management business in order to meet client needs rapidly and on a timely basis. The markets, including the technology sector served by many of our clients are subject to rapid technological change, new and enhanced product specification requirements, and evolving industry standards. These changes may cause inventory on hand to decline substantially in value or to rapidly become obsolete. The majority of our clients offer protection from the loss in value of inventory. However, our clients may become unable or unwilling to fulfill their protection obligations. The inability of our clients to fulfill their protection obligations could lower our gross margins and cause us to record inventory write-downs. If we are unable to manage our inventory with our clients with a high degree of precision, we may have insufficient product supplies or we may have excess inventory, resulting in inventory write-downs, which may harm our business, financial position and operating results.

Our ability to obtain particular products or components in the quantities required to fulfill client orders on a timely basis is critical to our success. We have no guaranteed price or delivery agreements with our suppliers. We may occasionally experience a supply shortage of some products as a result of strong demand or problems experienced by our suppliers. If shortages or delays persist, the price of those products may increase, or the products may not be available at all. Accordingly, if we are not able to secure and maintain an adequate supply of products or components to fulfill our client orders on a timely basis, our business, financial position and operating results may be adversely affected.

Our failure to meet client demands could result in lost revenues, increased expenses and negative publicity.

Our supply chain management clients face significant uncertainties in forecasting the demand for their products. Limitations on the size of facilities, number of personnel and availability of materials could make it difficult to meet clients' unforecasted demand for additional production. Any failure to meet clients' specifications, capacity requirements or expectations could result in lost revenue, lower client satisfaction, negative perceptions in the marketplace and potential claims for damages.

If we are not able to establish client sites where requested, or if we fail to retain key clients at established sites, our client relationships, revenue and expenses could be seriously harmed.

Our supply chain management clients have, at times, requested that we add capacity or open a facility in locations near their sites. If we elect not to add required capacity at sites near existing clients or establish sites near existing or potential clients, clients may decide to seek alternate service providers. In addition, if we lose a significant client of a particular site or open or expand a site with the expectation of business that does not materialize, operations at that site could become unprofitable or significantly less efficient. Any of these events could have a material adverse effect on our business, revenues and expenses.

We may encounter problems in our efforts to increase operational efficiencies.

We continue to identify ways to increase efficiencies and productivity and effect cost savings. We have undertaken and implemented projects designed to increase our operational efficiencies, including the standardization to a global business solutions platform through the investment of approximately \$31.5 million in an ERP system based on SAP. We are also in the process of implementing a shared services model utilizing centralized "hub" locations to service multiple "spoke" locations across the Americas, Asia and Europe regions. We cannot assure you that the completion of these projects will result in the realization of the expected benefits that we anticipate in a timely manner or at all. We may encounter problems with these projects that will divert the attention of management and/or result in additional costs and unforeseen project delays. If we are unable to complete these projects in a timely manner and without significant problems, or these projects do not achieve expected results, our business, financial position and operating results may be adversely affected.

We are subject to risks of operating internationally.

We maintain significant operations outside of the United States, and we will likely continue to expand these operations. Our success depends, in part, on our ability to manage and expand our international operations. This international expansion requires significant management attention and financial resources. Our operations will continue to be subject to numerous and varied regulations worldwide, some of which may have an adverse effect on our ability to develop our international operations in accordance with our business plans or on a timely basis.

We currently conduct business in the The Netherlands, Hungary, France, Ireland, Czech Republic, Singapore, Taiwan, China, Malaysia, Japan and Mexico in addition to our United States operations. International revenue accounted for approximately 67% of our total revenue for the year ended July 31, 2007. A portion of our international revenue, cost of revenue and operating expenses are denominated in foreign currencies. Changes in exchange rates between foreign currencies and the U.S. dollar may adversely affect our operating results. There is also additional risk if the currency is not freely traded. Some currencies, such as the Chinese Renminbi, are subject to limitations on conversion into other currencies, which can limit or delay our ability to repatriate funds or engage in hedging activities. While we often enter into forward currency exchange contracts to manage a portion of our exposure to foreign currencies, future exchange rate fluctuations may have a material adverse effect on our business and operating results.

There are other risks inherent in conducting international operations, including:

- added fulfillment complexities in operations, including multiple languages, currencies, bills of materials and stock keeping units;
- the complexity of ensuring compliance with multiple U.S. and foreign laws, particularly differing laws on intellectual property rights, export control, taxation and duties; and
- labor practices, difficulties in staffing and managing foreign operations, political and social instability, health crises or similar issues, and potentially adverse tax consequences.

In addition, a substantial portion of our business is now conducted in China, where we face additional risks, including the following:

- the challenge of navigating a complex set of licensing and tax requirements and restrictions affecting the conduct of business in China by foreign companies;
- difficulties and limitations on the repatriation of cash;
- currency fluctuation and exchange rate risks;
- protection of intellectual property, both for us and our clients;
- evolving regulatory systems and standards, including recent tax law changes; and
- difficulty retaining management personnel and skilled employees.

Our international operations increase our exposure to international laws and regulations. Noncompliance with foreign laws and regulations, which are often complex and subject to variation and unexpected changes, could result in unexpected costs and potential litigation. For example, the governments of foreign countries might attempt to regulate our products and services or levy sales or other taxes relating to our activities; foreign countries may impose tariffs, duties, price controls or other restrictions on foreign currencies or trade barriers; or a governmental authority could make an unfavorable determination regarding our operations, any of which could make it more difficult to conduct our business and have a material adverse effect on our business and operating results.

If we are unable to manage these risks, we may face significant liability, our international sales may decline and our financial results may be adversely affected.

We may be affected by strikes, work stoppages and slowdowns by our employees.

Some of our international employees are covered by collective bargaining agreements or represented by labor unions. We believe our relations with our employees are generally good; however, we may experience strikes, work stoppages or slowdowns by employees. A strike, work stoppage or slowdown may affect our ability to meet our clients' needs, which may result in the loss of business and clients and have a material adverse effect on our financial condition and results of operations. The terms of future collective bargaining agreements also may affect our competitive position and results of operations.

We may have problems raising capital we need in the future.

Historically, we have financed our operations and met our capital requirements primarily through funds generated from operations, the issuance of common stock, the sale of our interests in subsidiaries, returns generated by our venture capital business and borrowings from lending institutions. Market and other conditions largely beyond our control may affect our ability to engage in future sales of our securities, the timing of any sales, and the amount of proceeds we receive from sales of our securities. Even if we are able to sell our securities in the future, we may not be able to sell at favorable prices or on favorable terms. In addition, this funding source may not be sufficient in the future, and we may need to obtain funding from outside sources. However, we may not

be able to obtain funding from outside sources. In addition, even if we find outside funding sources, we may be required to issue to those outside sources securities with greater rights than those currently possessed by holders of our common stock. We may also be required to take other actions, which may lessen the value of our common stock or dilute our common stockholders, including borrowing money on terms that are not favorable to us or issuing additional shares of common stock. If we experience difficulties raising capital in the future, our business could be materially adversely affected.

A decline in the technology sector could reduce our revenue.

A large portion of our revenue comes from clients in the technology sector, which is intensely competitive and very volatile. Declines in the overall performance of the technology sector have in the past and could in the future adversely affect the demand for supply chain management services and reduce our revenue and profitability from these clients.

The gross margins in the supply chain management business are low, which magnify the impact of variations in revenue and operating costs on our financial results.

As a result of intense price competition in the technology products marketplace, the gross margins in our supply chain management business are low, and we expect them to continue to be low in the future. These low gross margins magnify the impact of variations in revenue and operating costs on our financial results. Although we have identified initiatives designed to increase our gross margins, increased competition arising from industry consolidation and/or low demand for products may hinder our ability to maintain or improve our gross margins. Portions of our operating expenses are relatively fixed, and planned expenditures are based in part on anticipated orders. Our current ability to forecast the amount and timing of future order volumes is difficult, and we expect this to continue because we are highly dependent upon the business needs of our clients, which are highly variable. As a result, we may not be able to reduce our operating expenses as a percentage of revenue to mitigate any further reductions in gross margins. We may also be required to spend money to restructure our operations should future demand fall significantly in any one facility. If we cannot proportionately decrease our cost structure in response to competitive price pressures, our business and operating results could suffer.

We will continue to be subject to intense competition.

The markets for our products and services are highly competitive and often lack significant barriers to entry, enabling new businesses to enter these markets relatively easily. Numerous well-established companies and smaller entrepreneurial companies are focusing significant resources on developing and marketing products and services that will compete with our products and services. The market for supply chain management products and services is very competitive, and the intensity of the competition is expected to continue to increase. Any failure to maintain and enhance our competitive position would limit our ability to maintain and increase market share, which would result in serious harm to our business. Increased competition may also result in price reductions, reduced gross margins and loss of market share. In addition, many of our current and potential competitors will continue to have greater financial, technical, operational and marketing resources. We may not be able to compete successfully against these competitors. Competitive pressures may also force prices for supply chain management products and services down and these price reductions may reduce our revenues.

The physical or intellectual property of our supply chain management clients may be damaged, misappropriated, stolen or lost while in our possession, subjecting us to litigation and other adverse consequences.

In the course of providing supply chain management services to our clients, we often have possession of or access to their physical and intellectual property, including consigned inventory, databases, software masters, certificates of authenticity and similar valuable physical or intellectual property. If this physical or intellectual property is damaged, misappropriated, stolen or lost, we could suffer:

- claims under client agreements or applicable law, or other liability for damages;
- delayed or lost revenue due to adverse client reaction;
- negative publicity; and
- litigation that could be costly and time consuming.

We could be subject to infringement claims and other liabilities.

From time to time, we have been, and will continue to be, subject to third-party claims in the ordinary course of business, including claims of alleged infringement of intellectual property rights. These claims may damage our business by:

- subjecting us to significant liability for damages;

- resulting in invalidation of our proprietary rights;
- resulting in costly license fees in order to settle the claims;
- being time-consuming and expensive to defend even if the claims are not meritorious; and
- resulting in the diversion of our management's time and attention.

We may be liable if third parties misappropriate personal information of our clients' customers.

We often handle personal information as part of our e-Business offering. Any security breach could expose us to risks of loss, litigation and liability and could seriously disrupt our operations. If third parties are able to penetrate our network or telecommunications security or otherwise misappropriate the personal information or credit card information of our clients' customers or if we give third parties improper access to such information, we could be subject to liability. This liability could include claims for unauthorized purchases with credit card information, impersonation or other similar fraud claims. They could also include claims for other misuses of personal information, including unauthorized marketing purposes. These claims could result in litigation. Liability for misappropriation of this information could be significant. Further, any resulting adverse publicity arising from investigations could have a material adverse impact on our business.

We depend on third-party software, systems and services.

Our business and operations rely on third parties to provide products and services, including IT products and services, and shipping and transportation services. We may experience operational problems attributable to the installation, implementation, integration, performance, features or functionality of third-party software, systems and services. Any interruption in the availability or usage of the products and services provided by third parties could have a material adverse effect on our business or operations.

We depend on important employees, and the loss of any of those employees may harm our business.

Our performance is substantially dependent on the performance of our executive officers and other key employees, as well as management of our subsidiaries. The familiarity of these individuals with technology and service-related industries makes them especially critical to our success. Our success is also dependent on our ability to attract, train, retain and motivate high quality personnel, especially for our subsidiaries' management teams. Competition for personnel is intense. The loss of the services of any of our executive officers or key employees may harm our business.

Our strategy of expanding our business through acquisitions of other businesses and technologies presents special risks.

We may expand our business in certain areas through the acquisition of businesses, technologies, products and services from other businesses, as we have in the past. Acquisitions involve a number of special problems, including:

- the need to incur additional indebtedness, issue stock (which may have rights superior to the rights of our common stockholders and which may have a dilutive effect on our common stockholders) or use cash in order to complete the acquisition;
- difficulty integrating acquired technologies, operations and personnel with the existing businesses;
- diversion of management attention in connection with both negotiating the acquisitions and integrating the assets;
- strain on managerial and operational resources as management tries to oversee larger operations;
- the funding requirements for acquired companies may be significant;
- exposure to unforeseen liabilities of acquired companies; and
- increased risk of costly and time-consuming litigation, including stockholder lawsuits.

We may not be able to successfully address these problems. Our future operating results will depend to a significant degree on our ability to successfully integrate acquisitions and manage operations while also controlling expenses and cash burn.

The price of our common stock has been volatile and may fluctuate, in part, based on the value of our assets.

The market price of our common stock has been and is likely to continue to be volatile. In recent years, the stock market has experienced significant price and volume fluctuations, which have particularly impacted the market prices of equity securities of many companies providing technology-related products and services. Some of these fluctuations appear to be unrelated or disproportionate to the operating performance of these companies. Future market movements may adversely affect the market price of our common stock.

In addition, a portion of our assets includes the equity securities of both publicly traded and privately held companies. The market price and valuations of the securities that we hold may fluctuate due to market conditions and other conditions over which we have no control. Fluctuations in the market price and valuations of the securities that we hold in other companies may result in fluctuations of the market price of our common stock and may reduce the amount of working capital available to us.

We may incur impairments to goodwill.

We are required to test goodwill for impairment annually or if a triggering event occurs in accordance with the provisions of SFAS No. 142 “Goodwill and Other Intangible Assets.” Our policy is to perform the annual impairment testing for all reporting units, determined to be the Americas, Europe and Asia operating segments, in the fourth quarter of each fiscal year. Our valuation methodology for assessing impairment requires management to make judgments and assumptions based on historical experience and to rely heavily on projections of future operating performance. We operate in highly competitive environments and projections of future operating results and cash flows may vary significantly from actual results. If our assumptions used in preparing our valuations of our reporting units for purposes of impairment testing differ materially from actual future results, we may record impairment charges in the future and our financial results may be materially adversely affected. The carrying value of goodwill at July 31, 2007 was approximately \$178.3 million.

Venture capital investing is risky and highly speculative.

Through @Ventures we invest in privately held companies. We receive proceeds relating to our investments, if at all, only when a portfolio company engages in a liquidity event, such as an initial public offering, or the acquisition of a portfolio company or our interest by a third party. Liquidity events may take many years to materialize and the timing of liquidity events is difficult to predict. As a result there is much uncertainty as to the timing and impact of our venture capital portfolio on our financial results. Our ability to earn returns on our investment, or even recover our capital, is dependent upon factors outside of our control, including the success of our portfolio companies’ businesses, and the market for initial public offerings and mergers and acquisitions. We typically own a minority position in our portfolio companies, which may afford us representation on the board of directors of a portfolio company but does not give us control over the entity. As a result we may have limited, if any, influence over our portfolio companies’ businesses and strategies. We cannot assure you that we will earn any returns or recover our invested capital.

ITEM 1B.— UNRESOLVED STAFF COMMENTS

None.

ITEM 2.— PROPERTIES

At August 31, 2007, our various properties in the Americas, Europe and Asia regions utilized for office, storage, warehouse, production and assembly, sales and marketing, and operations facilities included the following locations and approximate square footage:

<u>Location</u>	<u>Approximate Sq. Ft.</u>
California(1)	480,000
Florida	106,000
Georgia	600
Illinois(2)	158,000
Indiana	96,000
Massachusetts(3)	210,000
North Carolina	140,000
Oregon	16,000
Tennessee	240,000
Texas	181,000
Utah(4)	338,000
Mexico	94,000
Czech Republic	252,000
France	84,000
Hungary	80,000
Ireland(5)	217,000
The Netherlands	268,000
China	368,000
Hong Kong	300
Japan	109,000
Malaysia	73,000
Singapore	132,000
Taiwan	99,000
Total Square Feet	<u>3,741,900</u>

(1) Includes approximately 294,000 square feet not currently being utilized by us

(2) Includes approximately 87,000 square feet not currently being utilized by us

(3) Includes approximately 187,000 square feet not currently being utilized by us

(4) Includes approximately 169,000 square feet not currently being utilized by us

(5) Includes approximately 26,000 square feet not currently being utilized by us

Our leases generally expire at varying dates through fiscal year 2019 and include renewals at our option. Certain facilities leased by us are subleased in whole or in part to subtenants and we are seeking to sublease additional office and warehouse space that is not currently being utilized by us. We believe that our existing facilities are suitable and adequate for our present purposes, and that new facilities will be available in the event we need additional or new space.

ITEM 3.— LEGAL PROCEEDINGS

From time to time, we may become involved in litigation relating to claims arising out of operations in the normal course of business, which we consider routine and incidental to our business. We currently are not a party to any legal proceedings, the adverse outcome of which, in management's opinion, would have a material adverse effect on our business, results of operation or financial condition.

ITEM 4.— SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted to a vote of our stockholders during the fourth quarter of fiscal 2007.

PART II

ITEM 5.— MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

Our common stock is traded on the NASDAQ Global Market under the symbol “CMGI.” The following table sets forth the range of high and low sales prices per share of common stock, as reported by the NASDAQ Global Market for our two most recent fiscal years.

<u>Fiscal Year Ended July 31, 2007</u>	<u>High</u>	<u>Low</u>
First Quarter	\$1.42	\$0.98
Second Quarter	\$1.50	\$1.23
Third Quarter	\$2.50	\$1.23
Fourth Quarter	\$2.60	\$1.50

<u>Fiscal Year Ended July 31, 2006</u>	<u>High</u>	<u>Low</u>
First Quarter	\$1.92	\$1.46
Second Quarter	\$1.84	\$1.46
Third Quarter	\$1.55	\$1.29
Fourth Quarter	\$1.47	\$0.99

Stockholders

As of September 27, 2007, there were approximately 5,500 holders of record of common stock of the Company.

Dividends

We have never declared or paid cash dividends on our common stock. We currently intend to retain earnings, if any, to support our growth strategy and do not anticipate paying cash dividends in the foreseeable future. Payment of future dividends, if any, will be at the discretion of our Board of Directors after taking into account various factors, including our financial condition, operating results, current and anticipated cash needs and plans for expansion.

Issuer Purchases of Equity Securities

We did not repurchase any shares of common stock during fiscal year 2007.

Equity Compensation Plans

Information regarding the Company’s equity compensation plans and the securities authorized for issuance thereunder is set forth in Item 12 Part III.

Performance Graph

The following graph shows the yearly change in the cumulative total stockholder return on our common stock from July 31, 2002 through July 31, 2007, with the cumulative total return of the NASDAQ Composite Index (U.S. companies) and the NASDAQ Computer and Data Processing Services Index during the same period. Management cautions that the stock price performance shown in the graph below should not be considered indicative of potential future stock performance.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among CMGI, Inc., The NASDAQ Composite Index
And The NASDAQ Computer & Data Processing Index

	7/02	7/03	7/04	7/05	7/06	7/07
CMGI, Inc.	100.00	436.59	336.59	463.41	253.66	385.37
NASDAQ Composite	100.00	128.66	142.78	164.72	161.10	197.04
NASDAQ Computer & Data Processing	100.00	121.90	133.29	151.08	150.92	185.31

The graph shown above represents the five year cumulative total return and assumes that \$100 was invested in our common stock and in each index on July 31, 2002 and assumes reinvestment of any and all dividends.

ITEM 6.— SELECTED CONSOLIDATED FINANCIAL DATA

The following table sets forth selected consolidated financial information for the five years ended July 31, 2007. The following selected consolidated financial data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Item 7 below and our accompanying consolidated financial statements and notes to consolidated financial statements in Item 8 below. On August 2, 2004, we acquired Modus Media, Inc. (“Modus”). The following consolidated financial data includes the results of operations of ModusLink from the date of acquisition of Modus in August 2004. The following consolidated financial data also includes the results of operations of certain subsidiaries that have been sold or ceased operations. In fiscal 2003, the operations of ProvisionSoft ceased, our two former operating companies, AltaVista and uBid, each sold substantially all of their assets, and we divested our interest in NaviSite, Engage, Equilibrium, Yesmail, Tallán and Signatures Network. In fiscal 2006, Saleslink sold its marketing distribution services business. For all periods presented, the results of operations of NaviSite, Engage, Equilibrium, AltaVista, Yesmail, uBid, Tallán, ProvisionSoft and the marketing distribution services business of SalesLink have been accounted for within discontinued operations. A description of our recent discontinued operations and divestiture activities is set forth in Note 6 of the accompanying notes to consolidated financial statements in Item 8 below. The historical results presented herein are not necessarily indicative of future results.

ITEM 7.— MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words “believes,” “anticipates,” “plans,” “expects” and similar expressions are intended to identify forward-looking statements. Factors that could cause actual results to differ materially from those reflected in the forward-looking statements include, but are not limited to, those discussed in Item 1A of this report, “Risk Factors”, and elsewhere in this report. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management’s analysis, judgment, belief or expectation only as of the date hereof. We do not undertake any obligation to update forward-looking statements whether as a result of new information, future events or otherwise.

Overview

CMGI, through its subsidiary, ModusLink, provides industry-leading end-to-end global supply chain management solutions that help businesses market, sell and distribute their products and services. Our core capabilities are categorized as sourcing and supply base management, manufacturing and product configuration, fulfillment and distribution, e-Business, and aftermarket services such as reverse logistics and asset disposition. ModusLink services technology-based clients in such markets as computing, software, consumer electronics, storage and communications.

We also invest in emerging, innovative and promising technologies and industries through our venture capital business, @Ventures. Approximately \$11.2 million was invested by @Ventures and we received approximately \$35.0 million of proceeds from the acquisition by third parties of certain of @Ventures portfolio companies in fiscal 2007.

Management evaluates operating performance based on net revenue, operating income (loss), and net income (loss), and, across its segments, on the basis of “non-GAAP operating income (loss),” which is defined as operating income (loss) excluding net charges related to depreciation, long-lived asset impairment, restructuring, amortization of intangible assets and stock-based compensation. See Note 5 of the accompanying notes to consolidated financial statements included in Item 8 below for segment information, including a reconciliation of non-GAAP operating income (loss) to net income (loss).

During the latter part of fiscal 2005, we developed a set of strategic initiatives and an operating plan focused on increasing both revenue and profitability. We view the continued development of our global operational infrastructure and footprint as a primary source of differentiation in the marketplace. We believe that by leveraging our global footprint we will be able to optimize our clients’ supply chains using multi-facility, multi-geographic solutions. In line with this focus, during fiscal 2005, we made our initial investment in the implementation of a new global systems infrastructure, the foundation of which will be run on an ERP system based on SAP.

During fiscal 2007, our focus was on executing against our strategic plan, including implementing the following initiatives to achieve our goals:

Drive sales growth through a combination of existing client penetration and targeting new vertical markets. Historically, a significant portion of our revenues from our supply chain business have been generated from clients in the computing and software verticals. These verticals are mature and, as a result, gross margins in these verticals are low. To address this, we have expanded our sales focus to include three new markets, in addition to the computing and software verticals, that we believe can benefit from our supply chain expertise. We believe these verticals, communications, storage devices, and consumer electronics, are experiencing faster growth than our historical markets, and represent opportunities to realize higher gross margins on our services. Companies in these markets often are early in their product life cycles and have significant need for a supply chain partner which will be an extension to their business models.

Increase the value delivered to clients through service expansion. During fiscal year 2007 we continued to focus on and invest in expanding our e-commerce and logistics management services offerings, which we believe will increase the overall value of the supply chain solutions we deliver to our existing clients and to new clients. We expect these solutions will enhance our gross margins and drive greater profitability. Further, we believe that the addition of new services to existing clients will strengthen our relationship with these clients, and further integrate us with their business.

Drive operational efficiencies throughout our organization. As a result of the Modus acquisition, the Company has been running multiple information technology systems at a significant cost. Our strategy is to operate an integrated supply chain system infrastructure that extends from front-end order management through distribution and returns management. This end-to-end

solution is being designed to enable clients to link supply and demand in real time, improve visibility and performance throughout the supply chain, and provide real-time access to information for greater collaboration and making informed business decisions. We believe our clients will benefit greatly from a global integrated business solution while we also reduce our operating costs. We currently expect to invest a total of \$31.5 million in this initiative, of which approximately 77% was incurred through July 31, 2007. Another program that we expect will drive further operational efficiencies in the future is the implementation of a global shared services model utilizing centralized “hub” locations to service multiple “spoke” locations across the Americas, Asia and Europe regions. We believe this initiative will yield improved process standardization and operating efficiency gains, as well as lower our operating costs.

We believe that successful execution of these initiatives will enable us to improve our financial performance. We have developed financial operating metric goals which are dependent on the successful implementation of these initiatives and annual revenue growth on a percentage basis of high single to low double digits. These goals are to (i) increase our gross margin percentage to approximately 12% to 14%, compared to approximately 11.5% in fiscal 2007 and approximately 10.3% in fiscal 2006, (ii) reduce our overall selling, general and administrative, restructuring and amortization costs to approximately 7% of revenue compared to approximately 10.2% in both fiscal 2007 and 2006, and (iii) therefore, result in an operating margin between 5% and 7%. From time to time we publicly state our progress against these goals and current expectation of when we believe we will attain these goals and begin operating at these levels. Among the key factors that will influence our performance against these goals are successful execution and implementation of our strategic initiatives, global economic conditions, especially in the technology sector, demand for our clients’ products, and demand for outsourcing services.

For the fiscal year ended July 31, 2007, we reported net revenue of \$1.1 billion, operating income of \$14.8 million, income from continuing operations before income taxes of \$56.3 million and net income of \$49.4 million. We currently conduct business in The Netherlands, Hungary, France, Ireland, Czech Republic, Singapore, Taiwan, China, Malaysia, Japan, and Mexico in addition to our United States operations. At July 31, 2007, we had cash and cash equivalents, available for sale securities and short-term investments of \$282.3 million, and working capital of \$320.2 million.

As of July 31, 2007, approximately 43%, 38% and 19% of our long-lived assets were located in the Americas, Asia and Europe, respectively. As of July 31, 2006, approximately 47%, 36% and 17% of our long-lived assets were located in the Americas, Asia and Europe, respectively. Approximately 67%, 60% and 60% of our consolidated net revenue was generated outside the United States during fiscal years 2007, 2006 and 2005, respectively.

As a large portion of our revenue comes from outsourcing services provided to clients such as hardware manufacturers, software publishers, telecommunications carriers, broadband and wireless service providers and consumer electronics companies, our operating performance could be adversely affected by declines in the overall performance of the technology sector. The market for our supply chain management products and services is very competitive. We also face pressure from our clients to continually realize efficiency gains in order to help our clients maintain their gross margins and profitability. Increased competition and client demands for efficiency improvements may result in price reductions, reduced gross margins and in some cases loss of market share. As a result of these competitive and client pressures, the gross margins in our business are low. Increased competition arising from industry consolidation and/or low demand for our clients’ products and services may hinder our ability to maintain or improve our gross margins, profitability and cash flows. We must continue to focus on margin improvement, through implementation of our strategic initiatives, cost reductions and asset and employee productivity gains in order to improve the profitability of our business and maintain our competitive position. We are reacting to margin and pricing pressures in several ways, including efforts to target new vertical markets, expand our service offerings and to lower our infrastructure costs. Our ERP and hub and spoke initiatives are key enablers to drive efficiencies and lower our operating costs. We also seek to lower our cost to service clients by moving work to lower-cost venues, establishing facilities closer to our clients to gain efficiencies, and other actions designed to improve the productivity of our operations.

Historically, a limited number of key clients have accounted for a significant percentage of our revenue. For the fiscal year ended July 31, 2007, sales to Hewlett-Packard and Advanced Micro Devices accounted for approximately 31% and 11%, respectively, of our consolidated net revenue. During fiscal 2007, five clients accounted for approximately 62% of our consolidated net revenue. For the fiscal year ended July 31, 2006, sales to Hewlett-Packard and Kodak accounted for approximately 30% and 11%, respectively, of our consolidated net revenue. During fiscal 2006, five clients accounted for approximately 60% of our consolidated net revenue. Sales to one client, Hewlett-Packard, accounted for approximately 36% of our consolidated net revenue for fiscal year 2005.

In fiscal 2007, we recognized lower annual revenues from Kodak as a result of changes to certain programs that we executed on their behalf in fiscal 2006. Sales to Kodak declined by approximately \$68.6 million from approximately \$126.0 million in fiscal year 2006 to \$57.4 million in fiscal 2007. In addition, as previously announced, in February 2007, we were informed that a business unit of Hewlett-Packard intended to migrate away from ModusLink a program which accounts for approximately \$100.0 million of annual

revenue. The operating income associated with this program is estimated at less than \$3.0 million per year. Volumes associated with this program declined in the fourth quarter of fiscal 2007 and did not have a significant impact on the results of operations for fiscal 2007. We expect to continue to derive the vast majority of our operating revenue from sales to a small number of key clients. We currently do not have any agreements which obligate any client to buy a minimum amount of products or services from us or designate us as an exclusive service provider. Consequently, our sales are subject to demand variability by our clients. The level and timing of orders placed by our clients vary for a variety of reasons, including seasonal buying by end-users, the introduction of new technologies and general economic conditions.

Basis of Presentation

The Company reports three operating segments, Americas, Asia, and Europe. In addition to its three operating segments, the Company reports an Other category. The Other category represents corporate expenses consisting primarily of costs associated with certain corporate administrative functions such as legal and finance which are not fully allocated to the Company's subsidiary companies, administration costs related to the Company's venture capital business and any residual results of operations from previously divested operations.

Certain prior year amounts in the accompanying consolidated financial statements have been reclassified in accordance with accounting principles generally accepted in the United States of America to conform to the current year presentation.

All significant intercompany transactions and balances have been eliminated in consolidation. Accordingly, segment results reported by the Company exclude the effect of transactions between the Company and its subsidiaries and between the Company's subsidiaries.

Results of Operations

Fiscal 2007 compared to Fiscal 2006

Net Revenue:

	2007	As a % of Total Net Revenue	2006	As a % of Total Net Revenue	\$ Change	% Change
	(\$ in thousands)					
Americas	\$ 395,084	34.6%	\$ 479,093	41.7%	\$(84,009)	(17.5)%
Asia	288,936	25.3%	245,624	21.4%	43,312	17.6%
Europe	459,006	40.1%	424,169	36.9%	34,837	8.2%
Total	<u>\$1,143,026</u>	100.0%	<u>\$1,148,886</u>	100.0%	<u>\$ (5,860)</u>	(0.5)%

Net revenue within the Americas, Asia, and Europe segments decreased by approximately \$5.9 million for the fiscal year ended July 31, 2007, as compared to the prior fiscal year. This decrease included a decline in revenue from Kodak year over year of approximately \$68.6 million in connection with a change in their supply chain model. This decline in Kodak revenue year over year affected the Americas, Asia and Europe segments by approximately \$36.0 million, \$3.4 million and \$29.2 million, respectively. In addition to the decline mentioned above, the net revenue in the Americas region was also negatively impacted by lower revenue of approximately \$23.0 million due to a change in a client's program. The remaining decrease in the Americas revenue of approximately \$25.0 million resulted primarily from a net overall decrease in client order volumes as compared to the prior fiscal year. Within the Asia region, the net revenue growth of approximately \$43.3 million as compared to the prior fiscal year resulted primarily from increased revenue of approximately \$38.6 million due to a net overall increase in order volumes, new business and the launch of new programs for certain clients in addition to the contribution of revenue of approximately \$8.5 million from our subsidiary in Japan, which was previously operated as a joint venture in which we had a 40% interest. ModusLink acquired full ownership of this entity on April 2, 2007. These increases were partially offset by the decline in Kodak revenue mentioned above. Within the Europe region, the net revenue growth of approximately \$34.8 million resulted primarily from a net overall increase in order volumes, new client programs and new business, offset by the decline in Kodak revenue mentioned above as compared to the prior year.

A significant portion of our client base operates in the technology sector, which is intensely competitive and very volatile. Our clients' order volumes vary from quarter to quarter for a variety of reasons, including market acceptance of their new product introductions and overall demand for their products. This business environment, and our mode of transacting business with our clients, does not lend itself to precise measurement of the amount and timing of future order volumes, and as a result, future

consolidated and segment sales volumes and revenues could vary significantly from period to period. We sell primarily on a purchase order basis, rather than pursuant to contracts with minimum purchase requirements. These purchase orders are generally for quantities necessary to support near-term demand for our clients' products.

Cost of Revenue:

	2007	As a % of Segment Net Revenue	2006	As a % of Segment Net Revenue	\$ Change	% Change
	(in thousands)					
Americas	\$ 353,824	89.6%	\$ 430,570	89.9%	\$(76,746)	(17.8)%
Asia	224,555	77.7%	197,190	80.3%	27,365	13.9%
Europe	433,582	94.5%	402,895	95.0%	30,687	7.6%
Total	<u>\$1,011,961</u>	88.5%	<u>\$1,030,655</u>	89.7%	<u>\$(18,694)</u>	(1.8)%

Cost of revenue consists primarily of expenses related to the cost of materials purchased for sale or distribution as well as salaries and benefit expenses, consulting and contract labor costs, fulfillment and shipping costs, and applicable facilities costs. Cost of revenue decreased by approximately \$18.7 million for the fiscal year ended July 31, 2007 as compared to the fiscal year ended July 31, 2006. Gross margin improved to 11.5% for the fiscal year ended July 31, 2007 as compared to 10.3% in the prior fiscal year. For the fiscal year ended July 31, 2007, the Company's gross margin percentages within the Americas, Asia and Europe regions were approximately 10.4%, 22.3% and 5.5%, as compared to 10.1%, 19.7% and 5.0%, respectively, for the prior fiscal year. Within the Americas region the decline in cost of revenue of approximately \$76.7 million was in proportion to the decline in net revenue although the gross margin percentage improved by approximately 0.3% due to improved client and product mix and efficiencies realized as compared to the prior fiscal year. Within the Asia region, the approximately \$15.9 million or 2.6% increase in gross margin was primarily due to improved volume leveraging and efficiencies realized offset by an unfavorable impact of additional costs incurred primarily due to the higher volumes and four months of additional costs from the Company's Japan-based subsidiary as compared to the prior fiscal year. Within the Europe region the approximately \$4.2 million or 0.5% increase in gross margin was primarily due to improved client and product mix, volume leveraging, operating footprint optimization and efficiencies realized, offset by an unfavorable impact of additional costs incurred such as contract labor and other direct manufacturing costs primarily due to the higher volumes as compared to the prior fiscal year.

As a result of the lower overall cost of delivering the Company's products and services in the Asia region, particularly China, and the increasing demand for supply chain management services in that region, we expect gross margin levels in Asia to continue to exceed those earned in the Americas and Europe regions. However, we expect that there will continue to be pressure on gross margin levels in Asia as the market, particularly China, matures. Our gross margins are impacted by a number of factors, including competition, order volumes, pricing, client and product mix and configuration, and overall demand for our clients' products. A significant portion of the costs required to deliver our products and services is fixed in nature.

As outlined in our strategic initiative discussion in the Overview section above, we remain focused on margin improvement through several revenue and operating efficiency initiatives designed to improve the profitability of our business and maintain our competitive position.

Selling Expenses:

	2007	As a % of Segment Net Revenue	2006	As a % of Segment Net Revenue	\$ Change	% Change
	(in thousands)					
Americas	\$ 4,269	1.1%	\$ 7,504	1.6%	\$(3,235)	(43.1)%
Asia	4,389	1.5%	5,310	2.2%	(921)	(17.3)%
Europe	6,427	1.4%	7,254	1.7%	(827)	(11.4)%
Total	<u>\$15,085</u>	1.3%	<u>\$20,068</u>	1.7%	<u>\$(4,983)</u>	(24.8)%

Selling expenses consist primarily of compensation and employee-related costs, sales commissions and incentive plans, travel expenses, facilities costs, consulting fees and marketing expenses. Selling expenses decreased by approximately \$5.0 million for

the fiscal year ended July 31, 2007 as compared to the prior fiscal year ended July 31, 2006 primarily as a result of a decrease in compensation and employee related costs, consulting fees and travel expenses of approximately \$4.1 million, \$0.6 million and \$0.2 million, respectively. The decrease in compensation and employee related costs throughout the regions are the result of the reorganization of the global sales team. For the fiscal years ended July 31, 2007 and 2006, compensation and employee-related costs represented approximately 61% and 66% of total selling expenses, respectively.

General and Administrative Expenses:

	2007	As a % of Segment Net Revenue	2006	As a % of Segment Net Revenue	\$ Change	% Change
	(in thousands)					
Americas	\$20,177	5.1%	\$19,676	4.1%	\$ 501	2.5%
Asia	28,017	9.7%	21,802	8.9%	6,215	28.5%
Europe	27,192	5.9%	25,318	6.0%	1,874	7.4%
Subtotal	75,386	6.6%	66,796	5.8%	8,590	12.9%
Other	16,365	—	16,437	—	(72)	(0.4)%
Total	<u>\$91,751</u>	8.0%	<u>\$83,233</u>	7.2%	<u>\$8,518</u>	10.2%

General and administrative expenses within the Americas, Asia, and Europe operating segments consist primarily of compensation and other employee-related costs, facilities costs, information technology expenses, fees for professional services and depreciation expense. The total general and administrative expenses for these operating segments increased by approximately \$8.6 million for the fiscal year ended July 31, 2007, as compared to the prior fiscal year ended July 31, 2006 primarily due to approximately a \$2.1 million increase in compensation and other employee-related costs, a \$1.8 million increase in professional fees, a \$4.0 million increase in information technology infrastructure charges consisting primarily of global hardware and software maintenance expenses, and a \$1.2 million increase related to the new ERP system. These increases were offset by a reduction of insurance expense of approximately \$0.5 million. Within the Americas region, the approximately \$0.5 million increase in general and administrative expenses was primarily due to approximately a \$0.8 million increase in information technology infrastructure charges and a \$0.3 million increase associated with the new ERP system, offset by a \$0.5 million decrease in compensation and employee-related costs. Within the Asia region, the approximately \$6.2 million increase in general and administrative expenses was primarily due to approximately a \$2.0 million increase in compensation and employee-related costs, a \$1.0 million increase in professional fees, a \$1.9 million increase in information technology infrastructure charges and a \$1.1 million increase associated with the new ERP system. Within the Europe region, the approximately \$1.9 million increase in general and administrative expenses was primarily due to a \$1.7 million increase in information technology infrastructure charges.

Amortization of Intangible Assets:

	2007	As a % of Segment Net Revenue	2006	As a % of Segment Net Revenue	\$ Change	% Change
	(in thousands)					
Americas	\$2,126	0.5%	\$2,124	0.4%	\$ 2	0.1%
Asia	2,035	0.7%	2,040	0.8%	(5)	(0.2)%
Europe	660	0.1%	660	0.2%	—	0.0%
Total	<u>\$4,821</u>	0.4%	<u>\$4,824</u>	0.4%	<u>\$ (3)</u>	(0.1)%

The intangible asset amortization relates to certain amortizable intangible assets acquired by the Company in connection with its acquisition of Modus. These intangible assets are being amortized over lives ranging from 1 to 7 years.

Restructuring, net:

	<u>2007</u>	<u>As a % of Segment Net Revenue</u>	<u>2006</u>	<u>As a % of Segment Net Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
			(in thousands)			
Americas	\$3,234	0.8%	\$1,170	0.2%	\$ 2,064	176.4%
Asia	134	—	264	0.1%	(130)	(49.2)%
Europe	<u>1,269</u>	<u>0.3%</u>	<u>8,038</u>	<u>1.9%</u>	<u>(6,769)</u>	<u>(84.2)%</u>
Subtotal	4,637	0.4%	9,472	0.8%	(4,835)	(51.0)%
Other	<u>6</u>	—	<u>49</u>	—	<u>(43)</u>	<u>(87.8)%</u>
Total	<u>\$4,643</u>	<u>0.4%</u>	<u>\$9,521</u>	<u>0.8%</u>	<u>\$(4,878)</u>	<u>(51.2)%</u>

During the fiscal year ended July 31, 2007 the Company recorded net restructuring charges of approximately \$4.6 million. These charges consisted of approximately \$1.4 million relating to a workforce reduction of approximately 91 employees primarily related to the consolidation of facilities in the Netherlands in the Europe region and the elimination of redundant positions related to the Company's hub and spoke initiative from the Americas region as well as the closure or reorganization of certain Utah facilities in the Americas region. Additionally, the Company recorded approximately \$3.2 million relating to early termination charges and unutilized lease facilities for which the Company expects to realize no future economic benefit primarily due to the restructuring activities of the Netherlands facilities in the Europe region as well as the restructuring activities from the Americas region.

During the fiscal year ended July 31, 2006, the Company recorded net restructuring charges of approximately \$9.5 million. These charges consisted of approximately \$5.3 million relating to a workforce reduction of 146 employees, primarily due to the elimination of redundant positions in Europe related to the Company's hub and spoke initiative, and in the Americas related to the reorganization of certain operational and sales activities. In addition, the Company recorded approximately \$3.9 million of restructuring charges related to certain contractual obligations and real estate leases in connection with the consolidation of two facilities in the Netherlands and the closure of facilities in Ireland and Scotland as part of the Company's efforts to continue to drive lower costs and operating efficiencies, as well as approximately \$0.3 million relating to the impairment of certain assets no longer in service.

Interest Income/Expense:

During the fiscal year ended July 31, 2007, interest income increased by approximately \$4.2 million to approximately \$10.4 million from \$6.2 million from the prior fiscal year. The increase in interest income was the result of both higher average interest rates and higher average cash and cash equivalent and short-term investment balances during fiscal year 2007 compared to the prior fiscal year.

Interest expense totaled approximately \$2.5 million and \$2.8 million for the fiscal years ended July 31, 2007 and 2006, respectively. The Company incurred interest expense related to the Company's stadium obligation of approximately \$0.7 million in fiscal years 2007 and 2006, respectively. In both years, the remaining interest expense related primarily to outstanding borrowings on a revolving bank credit facility. Although the average borrowing rate increased during fiscal year 2007 as compared to fiscal year 2006, the average outstanding balance was lower during the current fiscal year as compared to the prior fiscal year.

Other Gains, net:

Other gains, net included a net gain of approximately \$31.9 million for the fiscal year ended July 31, 2007 as compared to a net gain of approximately \$28.5 million in the prior fiscal year. The net gains in both fiscal years resulted primarily from acquisitions by third parties of @Ventures portfolio companies. During fiscal year 2007, gains from sales of investments of approximately \$1.6 million and \$28.7 million, respectively, resulted from acquisitions by third parties of Mitchell International, Inc. and Avamar Technologies, Inc. Additionally, gains of approximately \$4.7 million were recorded to adjust previously recorded gains on acquisitions of @Ventures portfolio companies acquired by third parties in previous reporting periods, due to satisfaction of conditions leading to the release of funds held in escrow.

During the fiscal year ended July 31, 2006, the Company recorded gains from sales of investments of approximately \$19.4 million, \$3.3 million and \$4.6 million, respectively, resulting from acquisitions by third parties of WebCT Inc., Realm Business Solutions, Inc. and Alibris, Inc. Additionally, a gain of approximately \$0.5 million was recorded to adjust a previously recorded gain on the acquisition by a third party of Molecular, Inc., an @Ventures portfolio company, due to satisfaction of conditions leading to the release of funds held in escrow. The Company also recorded a gain of approximately \$2.7 million related to the sale of a building in Ireland.

Other gains, net also included foreign currency exchange losses of approximately \$2.8 million and \$2.3 million, respectively, for fiscal years 2007 and 2006. These foreign currency exchange losses related primarily to unhedged foreign currency exposures in Asia. The Company has operations in various countries throughout the world and its operating results and financial position can be affected by significant fluctuations in foreign currency exchange rates. The Company has historically used derivative financial instruments on a limited basis to assist in managing the exposure that results from such fluctuations, and expects to continue such practice.

Equity in Income (Losses) of Affiliates, net:

Equity in income (losses) of affiliates, net, resulted from the Company's minority ownership in certain @Ventures portfolio companies that are accounted for under the equity method of accounting. Under the equity method, the Company's proportionate share of each affiliate's income (losses) is included in equity in income (losses) of affiliates. Equity in income (losses) of affiliates increased by approximately \$1.8 million to income of approximately \$1.7 million for the fiscal year ended July 31, 2007 from a loss of approximately \$0.1 million for the fiscal year ended July 31, 2006 primarily as a result of an increase in net income recognized by certain of the affiliate companies. Included in equity in income (losses) of affiliates, net, for the fiscal years ended July 31, 2007 and 2006 are impairment charges of approximately \$1.0 million and \$0.6 million for other than temporary declines in the carrying value of certain investments in affiliates.

Income Tax Expense:

During the fiscal year ended July 31, 2007, the Company recorded income tax expense of approximately \$7.1 million, as compared to \$3.8 million for the prior fiscal year. Included in the prior year tax provision were income tax benefits of approximately \$2.0 million for the reduction in the Company's estimate of certain tax liabilities that had been included in accrued income taxes on the accompanying consolidated balance sheets.

For the year ended July 31, 2007, the Company recorded a tax provision of approximately \$3.7 million in the U.S. resulting from the utilization of acquired tax attributes. The utilization of acquired tax attributes results in an income tax expense and corresponding reduction of goodwill.

The Company continues to maintain a full valuation allowance against its deferred tax asset in the U.S. and certain of its foreign subsidiaries due to the uncertainty of realizing such benefits. A majority of the income recognized in the U.S. relates to proceeds received by @Ventures from liquidity events of portfolio companies. Due to the unpredictable nature of these events, the Company continues to maintain a valuation allowance in the U.S. and certain of its foreign subsidiaries against its deferred tax asset. The Company provides income tax expense related to the utilization of acquired tax attributes, federal alternative minimum tax, state taxes and foreign taxes.

Discontinued Operations:

During the fiscal year ended July 31, 2007, the Company recorded income from discontinued operations of approximately \$0.3 million primarily related to changes to previously recorded estimates for facility lease obligations based on changes to the underlying assumptions regarding the estimated length of time required to sublease the vacant space and the expected rent recovery rate.

For the fiscal year ended July 31, 2006, the Company recorded a loss from discontinued operations of approximately \$13.7 million primarily related to the discontinued operations and sale of the Company's marketing distribution services business, SalesLink. This business unit had previously been included within the Company's Americas reporting segment. The \$13.7 million loss from discontinued operations includes net operating charges of approximately \$9.6 million and a \$1.5 million loss on sale of the SalesLink's marketing distribution services business. The Company also recorded an approximately \$2.6 million impairment charge to a previously recorded loss on the sale of Tallan for an other than temporary decline in the carrying value of a note receivable and warrant. The net operating charges include revenues of approximately \$13.3 million, expenses of \$14.6 million, a charge of \$5.6 million for unutilized facility and equipment leases and a non-cash charge of \$2.7 million for the write down of goodwill.

The Company does not expect any future residual costs related to the discontinued operations noted above to be significant.

Results of Operations

Fiscal 2006 compared to Fiscal 2005

Net Revenue:

	<u>2006</u>	As a % of Total Net Revenue	<u>2005</u>	As a % of Total Net Revenue	<u>\$ Change</u>	<u>% Change</u>
	(\$ in thousands)					
Americas	\$ 479,093	41.7%	\$ 433,147	4.1%	\$45,946	10.6%
Asia	245,624	21.4%	212,595	20.2%	33,029	15.5%
Europe	424,169	36.9%	407,681	38.7%	16,488	4.0%
Subtotal	1,148,886	100.0%	1,053,423	100.0%	95,463	9.1%
Other	—	—	84	—	(84)	(100.0)%
Total	<u>\$1,148,886</u>	100.0%	<u>\$1,053,507</u>	100.0%	<u>\$95,379</u>	9.1%

Net revenue increased by \$95.4 million or 9% year over year. This increase in net revenues was primarily the result of approximately \$152.3 million of net revenues from two new global client programs awarded during fiscal 2005 which generated approximately \$80.3 million, \$32.5 million and \$39.5 million of incremental revenues in the Americas, Europe and Asia, respectively. This net revenue growth was partially offset by form factor changes and price reductions of approximately \$71.4 million during fiscal 2006. We have experienced reduced revenues from certain customer programs, primarily in Asia, as a result of the continued dematerialization of components or form factor changes to certain accessory kits which we produce for our clients. The price reduction impact to our revenues was largely attributable to certain price concessions in connection with the signing of a new multi-year contract in the spring of 2005 related to a major customer and its programs in the Asia region. "Form factor" relates to the simplification or elimination of components from our clients' final products, which in turn reduces the Company's revenue and margin potential.

Two clients, Hewlett-Packard and Kodak, accounted for approximately 30% and 11%, respectively, of our consolidated net revenue for the fiscal year ended July 31, 2006. A significant portion of our annual volume in fiscal 2006 with Kodak was concentrated within the first six months of our fiscal year in support of seasonality based demand for Kodak's consumer products during the holiday season.

Cost of Revenue:

	<u>2006</u>	As a % of Segment Net Revenue	<u>2005</u>	As a % of Segment Net Revenue	<u>\$ Change</u>	<u>% Change</u>
	(in thousands)					
Americas	\$ 430,570	89.9%	\$397,225	91.7%	\$33,345	8.4%
Asia	197,190	80.3%	161,184	75.8%	36,006	22.3%
Europe	402,895	95.0%	374,654	91.9%	28,241	7.5%
Total	<u>\$1,030,655</u>	89.7%	<u>\$933,063</u>	88.6%	<u>\$97,592</u>	10.5%

Cost of revenue consists primarily of expenses related to the cost of products purchased for sale or distribution as well as salaries and benefit expenses, consulting and contract labor costs, fulfillment and shipping costs, and applicable facilities costs. Cost of revenue increased for the fiscal year ended July 31, 2006 primarily as a result of the increase in revenues as compared to the prior fiscal year. Overall net revenue increased 9.1% while cost of revenue increased 10.5%, as compared to the prior year. As a result, gross margins for the fiscal year ended July 31, 2006 were 10.3% as compared to 11.4% in the prior year, a \$2.2 million decline.

The Company's gross margin percentages within the Americas, Asia and Europe regions were 10.1%, 19.7% and 5%, as compared to 8.3%, 24.2% and 8.1%, respectively, for the same period of the prior year. Within the Americas region, the \$12.6 million or 2% increase in gross margin percentage was primarily attributable to higher sales and the benefit of cost reduction initiatives implemented to improve operational efficiencies. Within the Asia region, the \$3.0 million or 4% decline in gross margin percentage was attributable to \$27.9 million of increased business volumes and cost savings offset by \$30.9 million of form factor

changes and price reductions. While volumes were strong, we also experienced reduced revenues from certain customer programs as a result of the continued dematerialization of components or form factor changes to certain accessory kits which we produce for our clients. The price reductions impact was largely attributable to certain price concessions in connection with the signing of a new multi-year contract in the spring of 2005. Within the Europe region, \$11.8 million or the 3% decline in gross margin percentage was primarily attributable to \$5.1 million of additional costs incurred in the second quarter to support a larger than anticipated surge in demand for a significant client's products during the holiday season. These costs primarily included higher freight expediting fees, warehousing and assembly costs, and distribution costs. In addition, gross margins in Europe were negatively impacted by \$7.9 million of form factor changes and price reductions versus the prior year, partially offset by approximately \$1.3 million of cost savings and increased business volumes.

Selling Expenses:

	2006	As a % of Segment Net Revenue	2005	As a % of Segment Net Revenue	\$ Change	% Change
	(in thousands)					
Americas	\$ 7,504	1.6%	\$ 7,019	1.6%	\$ 485	6.9%
Asia	5,310	2.2%	6,874	3.2%	(1,564)	(22.8)%
Europe	7,254	1.7%	7,688	1.9%	(434)	(5.6)%
Subtotal	20,068	1.7%	21,581	2.0%	(1,513)	(7.0)%
Other	—	—	(3)	(3.6)%	3	100.0%
Total	<u>\$20,068</u>	1.7%	<u>\$21,578</u>	2.0%	<u>\$(1,510)</u>	(7.0)%

Selling expenses consist primarily of compensation and employee-related expenses, sales commissions, facilities costs, marketing expenses and travel costs. During the fiscal year ended July 31, 2006, travel and entertainment, stock-based compensation, facility costs and employee related costs decreased by approximately \$0.8 million, \$0.4 million, \$0.3 million and \$0.2 million, respectively. These decreases were partially offset by higher consulting fees of approximately \$0.2 million. The \$0.5 million increase in selling expenses within the Americas region is primarily the result of higher employee-related costs as a result of higher commissions related to new business awarded during the year. The \$1.6 million decrease in selling expenses within the Asia region is primarily the result of lower employee-related costs of approximately \$0.9 million as a result of lower headcount, lower stock-based compensation of approximately \$0.3 million and lower travel and entertainment of \$0.1 million. The \$0.4 million decrease in selling expenses within the Europe region is primarily the result of lower employee-related costs as a result of lower headcount. This decrease was partially offset by higher commissions. Of the Company's total selling expenses for the fiscal year ended July 31, 2006 and 2005, employee-related costs represented approximately 66% and 62% of the total selling expense in each period.

General and Administrative Expenses:

	2006	As a % of Segment Net Revenue	2005	As a % of Segment Net Revenue	\$ Change	% Change
	(in thousands)					
Americas	\$19,676	4.1%	\$23,183	5.4%	\$(3,507)	(15.1)%
Asia	21,802	8.9%	18,532	8.7%	3,270	17.6%
Europe	25,318	6.0%	21,955	5.4%	3,363	15.3%
Subtotal	66,796	5.8%	63,670	6.0%	3,126	4.9%
Other	16,437	—	16,943	—	(506)	(3.0)%
Total	<u>\$83,233</u>	7.2%	<u>\$80,613</u>	7.7%	<u>\$ 2,620</u>	3.3%

General and administrative expenses within the Americas, Asia, and Europe operating segments consist primarily of compensation and other employee-related costs, facilities costs, depreciation expense and fees for professional services. The total general and administrative expenses for these operating segments increased during the fiscal year ended July 31, 2006, as compared to the prior fiscal year, primarily as a result of \$7.7 million of higher costs associated with the Company's migration to a

new ERP platform, higher depreciation of approximately \$1.6 million primarily as a result of the change to the new ERP platform and \$1.1 million of higher consulting costs. These costs were partially offset by approximately \$3.3 million of lower employee-related costs, \$1.9 million of lower legal and accounting costs and \$1.1 million of lower stock-based compensation. Within the Americas region, the \$3.5 million decrease in general and administrative expenses was primarily associated with lower employee-related costs of \$3.1 million. Within the Asia region, the \$3.3 million increase in general and administrative expenses was primarily associated with ERP initiative costs of approximately \$3.8 million. This increase was partially offset by lower software and hardware maintenance of \$0.7 million. Within the Europe region, the \$3.4 million increase in general and administrative expenses was primarily associated with the ERP initiative costs of approximately \$1.8 million, higher employee related costs of \$0.2 million, higher facility related costs of \$0.2 million and higher professional and accounting fees of \$0.2 million.

The general and administrative expenses within the Other category primarily reflect the cost of the Company's directors and officers insurance, costs associated with certain corporate administrative functions such as legal and finance which are not fully allocated to the Company's subsidiary companies, and administration costs related to the Company's venture capital business. General and administrative expenses within the Other category decreased by approximately \$0.5 million from the prior fiscal year primarily as a result of lower legal fees of approximately \$1.6 million, lower consulting, accounting and professional fees of \$2.3 million and lower insurance costs of \$0.7 million. These decreases were partially offset by higher stock based compensation expense recorded in connection with the Company's adoption of SFAS No. 123(R) of approximately \$2.9 million and higher employee related costs of \$0.9 million.

Amortization of Intangible Assets:

	2006	As a % of Segment Net Revenue	2005	As a % of Segment Net Revenue	\$ Change	% Change
	(in thousands)					
Americas	\$2,124	0.4%	\$2,864	0.7%	\$(740)	(25.8)%
Asia	2,040	0.8%	1,895	0.9%	145	7.7%
Europe	660	0.2%	467	0.1%	193	41.3%
Total	<u>\$4,824</u>	0.4%	<u>\$5,226</u>	0.5%	<u>\$(402)</u>	<u>(7.7)%</u>

The intangible asset amortization relates to certain amortizable intangible assets acquired by the Company in connection with its acquisition of Modus. These intangible assets are being amortized over lives ranging from 1 to 7 years.

Restructuring, net:

	2006	As a % of Segment Net Revenue	2005	As a % of Segment Net Revenue	\$ Change	% Change
	(in thousands)					
Americas	\$1,170	0.2%	\$2,805	0.6%	\$(1,635)	(58.3)%
Asia	264	0.1%	937	0.4%	(673)	(71.8)%
Europe	8,038	1.9%	1,397	0.3%	6,641	475.4%
Subtotal	9,472	0.8%	5,139	0.5%	4,333	84.3%
Other	49	—	119	141.7%	(70)	(58.8)%
Total	<u>\$9,521</u>	0.8%	<u>\$5,258</u>	0.5%	<u>\$ 4,263</u>	<u>81.1%</u>

During the fiscal year ended July 31, 2006, the Company recorded net restructuring charges of approximately \$9.5 million. These charges consisted of approximately \$5.3 million relating to a workforce reduction of 146 employees, primarily due to the elimination of redundant positions in Europe related to the Company's hub and spoke initiative, and in the Americas related to the reorganization of certain operational and sales activities. In addition, the Company recorded approximately \$3.9 million of restructuring charges related to certain contractual obligations and real estate leases in connection with the consolidation of two facilities in the Netherlands and the closure of facilities in Ireland and Scotland as part of the Company's efforts to continue to drive lower costs and operating efficiencies, as well as approximately \$0.3 million relating to the impairment of certain assets no longer in service.

During the fiscal year ended July 31, 2005, the Company recorded net restructuring charges of approximately \$5.3 million. These charges consisted of approximately \$2.5 million related to a workforce reduction of 135 employees, approximately \$3.2 million related to unutilized facilities for which the Company expects to realize no future economic benefit and approximately \$0.1 million related to the impairment of certain assets no longer in service. In addition, the Company recorded adjustments of approximately \$0.1 million to previously recorded restructuring estimates for facility lease obligations primarily based on changes to the underlying assumptions regarding the estimated length of time required to sublease each vacant space and the expected rent recovery rates. The Company also recorded an adjustment of approximately \$0.5 million as the result of a gain on the sale of previously impaired assets that had been reflected within restructuring expense.

Interest Income/Expense:

During the fiscal year ended July 31, 2006, interest income increased \$2.4 million to approximately \$6.2 million from \$3.8 million from the prior fiscal year. The increase in interest income was the result of both higher average interest rates and higher average cash and cash equivalent and short-term investment balances during fiscal 2006 compared to the prior fiscal year.

Interest expense totaled approximately \$2.8 million and \$2.0 million for the fiscal years ended July 31, 2006 and 2005, respectively. The Company incurred interest expense related to the Company's stadium obligation of approximately \$0.7 million and \$0.8 million in 2006 and 2005, respectively. In both years, the remaining interest expense related primarily to outstanding borrowings on a revolving bank credit facility. The interest expense on the revolving line of credit increased due to an increase in the borrowing rate as well as an increase in the average outstanding balance maintained during the year.

Other Gains, net:

Other gains, net, totaled a gain of \$28.5 million for the fiscal year ended July 31, 2006 as compared to a gain of \$2.6 million for the prior fiscal year. During the fiscal year ended July 31, 2006, the Company recorded a gain of approximately \$2.7 million related to the sale of a building in Europe. In addition, the Company recorded a gain of approximately \$19.4 million as a result of the acquisition of WebCT Inc. by a third party, a gain of approximately \$3.3 million as a result of the acquisition of Realm Business Solutions, Inc. by a third party and a gain of approximately \$4.6 million as a result of the acquisition of Alibris, Inc. by a third party. Web CT Inc., Realm Business Solutions Inc. and Alibris, Inc. were all @Ventures portfolio companies. The Company also recorded a gain of approximately \$0.5 million to adjust a previously recorded gain as a result of the acquisition of Molecular Inc., an @Ventures portfolio company, due to satisfaction of conditions leading to the release of funds held in escrow. The Company also incurred foreign exchange losses of approximately \$2.3 million during the fiscal year ended July 31, 2006, primarily related to unhedged foreign currency exposures in Asia.

Other gains, net, totaled \$2.6 million for the fiscal year ended July 31, 2005. During the fiscal year ended July 31, 2005, the Company realized gains totaling approximately \$5.7 million, of which approximately \$5.1 million related to the acquisition by third parties of two @Ventures portfolio companies, Molecular and Classmates Online, Inc. These gains were partially offset by foreign exchange losses during the year of approximately \$3.1 million, primarily related to unhedged foreign currency exposures in Asia.

Equity in Losses of Affiliates, net:

Equity in losses of affiliates, net, resulted from the Company's minority ownership in certain investments that are accounted for under the equity method. Under the equity method of accounting, the Company's proportionate share of each affiliate's income (losses) is included in equity in income (losses) of affiliates. Equity in losses of affiliates was approximately \$0.1 million for the fiscal year ended July 31, 2006 compared to equity in losses of affiliates of \$1.4 million for the prior fiscal year, primarily as a result of a decrease in net losses recognized by certain of the affiliate companies. Included in equity in losses of affiliates, net, for the fiscal years ended July 31, 2006 and 2005 are impairment charges of approximately \$0.6 million and \$0.4 million, respectively, for other than temporary declines in the carrying value of certain investments in affiliates.

Income Tax Expense/(Benefit):

During the fiscal year ended July 31, 2006, the Company recorded income tax expense of approximately \$3.8 million, as compared to an income tax benefit of \$19.9 million for the prior fiscal year. Included in the tax provision were income tax benefits of approximately \$2.0 million and \$24.7 million in fiscal 2006 and 2005, respectively, for the reduction in the Company's estimate of certain tax liabilities that had been included in accrued income taxes on the accompanying consolidated balance sheets.

For the year ended July 31, 2006, the Company's U.S. taxable income has been offset by net operating loss carryovers from prior years. For the year ended July 31, 2005, no income tax benefit was recorded for losses generated in the U.S. due to the

uncertainty of realizing such benefits and the fact that the Company has fully utilized its tax loss carryback benefits. The Company continues to maintain a full valuation allowance against its deferred tax asset in the U.S. and certain of its foreign subsidiaries due to the uncertainty of realizing such benefits. The Company provides income tax expense related to federal alternative minimum tax, state taxes and foreign taxes.

Discontinued Operations:

For the year ended July 31, 2006, the Company recorded a loss from discontinued operations of approximately \$13.7 million primarily related to the sale of the Company's marketing distribution services business, SalesLink. This business had previously been included within the Company's Americas reporting segment. During the second quarter ended January 31, 2006, CMGI's Board of Directors authorized the divestiture of SalesLink, management determined that its planned divestiture of SalesLink met the criteria for discontinued operations accounting in accordance with the provisions of Statement of Financial Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". As such, the operating results of SalesLink have been segregated from continuing operations and have been reported as discontinued operations in the accompanying balance sheets, statements of operations and cash flows for all periods presented. SalesLink's business was sold in June 2006. The \$13.7 million loss from discontinued operations is comprised of revenues of \$13.3 million, expenses of \$14.6 million, a charge of \$5.6 for unutilized facility and equipment leases, a non-cash charge of \$2.7 million for the write down of goodwill, and a \$1.5 million loss on sale of SalesLink's marketing and distribution services business. The Company also recorded a \$2.6 million impairment charge to a previously recorded loss on sale of Tallan for an other than temporary decline in the carrying value of a note receivable and warrant.

For the year ended July 31, 2005, the Company recorded a loss from discontinued operations of approximately \$4.2 million. The \$2.1 million of operating loss from discontinued operations is composed of revenues of \$16.3 million and total operating expenses of \$18.4 million as a result of the sale of the Company's marketing distribution services business unit, SalesLink, in fiscal 2006. The remaining \$2.0 million is attributable to the settlement of litigation brought against the Company by the Official Committee of Unsecured Creditors of Engage, Inc.

Liquidity and Capital Resources

Historically, we have financed our operations and met our capital requirements primarily through funds generated from operations, the issuance of CMGI common stock, the sale of our interests in subsidiaries, returns generated by our venture capital business and borrowings from lending institutions. As of July 31, 2007, our primary sources of liquidity consisted of cash and cash equivalents and short-term investments of \$282.3 million. In addition, ModusLink has a revolving credit agreement (the "Loan Agreement") with a bank syndicate. The Loan Agreement is a three-year \$60.0 million revolving credit facility, with a scheduled maturity of October 31, 2008. Advances under the Loan Agreement may be in the form of loans or letters of credit. Approximately \$24.8 million of borrowings were outstanding under the Loan Agreement, and approximately \$0.1 million had been reserved in support of outstanding letters of credit as of July 31, 2007. Interest on the revolving credit facility is based on Prime or the London Interbank Offered Rate "LIBOR" plus an applicable margin (ranging from 1.25% – 1.75%). The Loan Agreement is secured by all assets of ModusLink and includes certain restrictive financial covenants, which include balance sheet leverage, liquidity and profitability measures and restrictions that limit the ability of ModusLink, among other things, to merge, or acquire or sell assets without prior approval from the lenders. We were in compliance with all covenants at July 31, 2007 and 2006. In addition, we maintain credit facilities of approximately \$3.4 million and \$0.9 million with Japan and Taiwan banks, respectively. No amounts were outstanding under these facilities at July 31, 2007. Our working capital at July 31, 2007 was approximately \$320.2 million.

Net cash provided by operating activities of continuing operations was approximately \$52.6 million and \$16.6 million for the fiscal years ended July 31, 2007 and 2006, respectively, compared to net cash used for operating activities of continuing operations of approximately \$13.8 million for the fiscal year ended July 31, 2005. Cash provided by (used in) operating activities of continuing operations represents net income as adjusted for non-cash items and changes in working capital. The cash provided by operating activities of continuing operations for the fiscal year ended July 31, 2007 was primarily driven by income from continuing operations of approximately \$49.1 million as compared to income from continuing operations of approximately \$28.7 million and \$30.7 million, respectively, for fiscal years 2006 and 2005. Cash flows from operating activities of continuing operations for fiscal year 2007 also included a decrease in inventory of approximately \$21.0 million as a result of reduced volumes on certain client programs. Additionally, during the fiscal year ended July 31, 2007, non-cash items primarily included approximately \$15.0 million of depreciation expense, \$4.8 million of amortization of intangible assets, \$5.2 million of stock-based compensation expense and \$31.9 million of non-operating gains, net. Non-operating gains related primarily to our investments in @Ventures portfolio companies which were acquired by third parties during the year. We also incurred foreign currency exchange losses of approximately \$2.8 million which relate primarily to unhedged foreign currency exposures in Asia. During the fiscal year ended July 31, 2006, non-cash items primarily included approximately \$11.0 million of depreciation expense, \$4.8 million of amortization of intangible assets, \$6.4 million of stock-based compensation expense, \$2.7 million related to a gain on the sale of a

building in Europe and \$28.0 million of non-operating gains, net. Non-operating gains related primarily to our investments in @Ventures portfolio companies which were acquired by third parties during the year. During the fiscal year ended July 31, 2005, non-cash items primarily included \$9.7 million of depreciation expense, \$5.2 million of amortization of intangible assets and \$5.7 million of stock-based compensation expense. In fiscal 2005, net cash used from operating activities also included an inventory increase of approximately \$21.8 million, largely related to new client programs launched during the year.

We believe that our cash flows related to operating activities of continuing operations is dependent on several factors, including increased profitability, effective inventory management practices, and optimization of the credit terms of certain vendors of the Company. Our cash flows from operations are dependent on several factors including the overall performance of the technology sector, and the market for outsourcing services. The intensity of the competition in our markets is expected to continue to increase and this increased competition may result in price reductions, reduced gross margins and loss of market share. A one-percentage point decline in our gross margins earned during the fiscal year ended July 31, 2007, would have resulted in an approximately \$11.4 million decline in our cash flows from operating activities. We continue to focus on margin improvement, through our efforts to target new vertical markets, expand our service offerings and lower our infrastructure costs in order to improve the profitability and cash flows of our business and maintain our competitive position. We believe our ERP and hub and spoke initiatives are key enablers to drive efficiencies and lower our operating costs. We also seek to lower our cost to service clients, by moving work to lower-cost venues and establishing facilities closer to our clients to gain efficiencies.

Investing activities of continuing operations used cash of \$19.7 million, \$75.4 million and \$77.7 million for the fiscal years ended July 31, 2007, 2006 and 2005, respectively. The approximately \$19.7 million of cash used for investing activities in fiscal 2007 resulted from approximately \$24.0 million of capital expenditures, \$17.4 million of investments in auction rate securities and \$11.2 million of investments in affiliates. These cash uses were partially offset by approximately \$35.0 million of proceeds from the acquisition by third parties of @Ventures portfolio companies as previously noted. We also used approximately \$2.2 million, net of cash acquired, to acquire full ownership of the joint venture through which we operated in Japan. The approximately \$75.4 million of cash used for investing activities in fiscal 2006 resulted from the investment of approximately \$94.5 million in auction rate securities in order to increase the yields earned on our available cash, \$16.5 million of capital expenditures and \$6.8 million of investments in affiliates. These cash uses were partially offset by approximately \$3.0 million of proceeds from the sale of our SalesLink marketing distribution services business, \$2.7 million of proceeds from the sale of a building in Europe and approximately \$36.5 million from the acquisition by third parties of @Ventures portfolio companies as previously noted. During the fiscal year ended July 31, 2005, our primary use of cash for investing activities included the acquisition of Modus, for which we made a net cash payment of approximately \$66.2 million to retire Modus' debt and pay certain deal related costs. Also during the fiscal year ended July 31, 2005, we paid additional acquisition related costs of approximately \$1.8 million and had capital expenditures of \$12.3 million. In addition, during the fiscal year ended July 31, 2005, @Ventures invested approximately \$4.8 million and received distributions of approximately \$7.5 million related to the acquisition by third parties of @Ventures portfolio companies as previously noted. As of July 31, 2007, we had approximately \$30.5 million of investments in affiliates, which may be a potential source of future liquidity. However, we do not anticipate being dependent on liquidity from these investments to fund either our short-term or long-term operating activities. Through the fiscal year ended July 31, 2007, we have invested approximately \$24.3 million in a new ERP system in connection with our strategy to create a global integrated supply-chain system infrastructure that extends from front-end order management through distribution returns management. The total investment in the new ERP system is expected to approximate \$31.5 million.

Financing activities of continuing operations provided cash of approximately \$0.7 million for the fiscal year ended July 31, 2007 primarily as a result of proceeds from the issuance of common stock from the exercise of employee stock options and the employee stock purchase plan. Financing activities of continuing operations used cash of approximately \$0.7 million for the fiscal year ended July 31, 2006 and provided cash of approximately \$14.1 million for the fiscal year ended July 31, 2005. The \$0.7 million of cash used for financing activities of continuing operations during fiscal 2006 included approximately \$1.2 million of proceeds from the issuance of common stock from the exercise of employee stock options and the employee stock purchase plan and approximately \$1.7 million of cash used for the repayment of a mortgage in connection with the sale of a building in Europe. Also, during fiscal 2006, we borrowed \$11.0 million under the revolving line of credit in order to support the demand for certain client products. This borrowing was repaid prior to July 31, 2006. The \$14.1 million of cash provided by financing activities of continuing operations during fiscal 2005 included \$6.1 million of proceeds from the issuance of common stock primarily from employee stock option exercises and \$9.0 million of borrowings under the revolving line of credit. We are not dependent on liquidity from our financing activities to fund either our short-term or long-term operating activities.

Given our cash resources as of July 31, 2007, we believe that we have sufficient working capital and liquidity to support our operations, as well as continue to make investments through our venture capital business over the next fiscal year and for the foreseeable future. However, should additional capital be needed to fund future investment and acquisition activity, we may seek to raise additional capital through offerings of our stock, or through debt financing. There can be no assurance, however, that we will be able to raise additional capital on terms that are favorable to us, or at all.

Off-Balance Sheet Financing Arrangements

The Company does not have any off-balance sheet financing arrangements.

CONTRACTUAL OBLIGATIONS

The Company leases facilities and certain other machinery and equipment under various non-cancelable operating leases and executory contracts expiring through December 2019. Certain non-cancelable leases are classified as capital leases and the leased assets are included in property, plant and equipment, at cost. Such leasing arrangements involve buildings and machinery and equipment as noted in Note 7 in the accompanying consolidated financial statements in Item 8 below.

ModusLink has a revolving bank credit facility of \$60.0 million. As of July 31, 2007, the effective interest rate on the credit facility was LIBOR rates plus an applicable margin (ranging from 1.25%-1.75%). Approximately \$24.8 million of borrowings were outstanding under the facility, and approximately \$0.1 million had been reserved in support of outstanding letters of credit.

Purchase obligations represent an estimate of all open purchase orders and contractual obligations in the ordinary course of business for which the Company has not received the goods or services. Although open purchase orders are considered enforceable and legally binding, the terms generally allow us the option to cancel, reschedule, and adjust our requirements based on our business needs prior to the delivery of goods or performance of services.

Future minimum payments, including previously recorded restructuring obligations, as of July 31, 2007 are as follows:

<u>Contractual Obligations</u>	<u>Total</u>	<u>Less</u>	<u>1-3 years</u>	<u>3-5 years</u>	<u>After</u>
		<u>than 1</u>			
		<u>year</u>			<u>5 years</u>
		<u>(in thousands)</u>			
Operating leases	\$ 77,187	\$25,302	\$35,780	\$12,163	\$3,942
Capital leases	788	459	329	—	—
Stadium obligations	13,600	2,400	3,200	3,200	4,800
Long-term debt	33	33	—	—	—
Purchase obligations	70,964	70,964	—	—	—
Revolving line of credit	24,786	—	24,786	—	—
Total	<u>\$187,358</u>	<u>\$99,158</u>	<u>\$64,095</u>	<u>\$15,363</u>	<u>\$8,742</u>

The table above excludes obligations related to the Company's defined benefit pension plans. See Note 16 of the accompanying consolidated financial statements for a summary of our expected contributions and benefit payments for these plans.

Total future minimum lease payments have been reduced by future minimum sublease rentals of approximately \$4.8 million. Capital lease obligations are net of interest of approximately \$0.1 million.

Total rent and equipment lease expense charged to continuing operations was approximately \$25.8 million, \$21.3 million and \$21.1 million for the fiscal years ended July 31, 2007, 2006 and 2005, respectively.

In August 2000, the Company announced it had acquired the exclusive naming and sponsorship rights to the New England Patriots' new stadium, for a period of fifteen years. In August 2002, the Company finalized an agreement with the owner of the stadium to amend the sponsorship agreement. Under the terms of the amended agreement, the Company relinquished the stadium naming rights and remains obligated for a series of annual payments of \$1.6 million per year through 2015. The Company applied a discount rate to the future payment stream to reflect the present value of its obligation on the accompanying consolidated balance sheet.

The Company applies the disclosure provisions of FIN No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Guarantees of Indebtedness of Others", an Interpretation of FASB Statements No. 5, 57 and 107 and Rescission of FASB Interpretation No. 34, to its agreements that contain guarantee or indemnification clauses. These disclosure provisions expand those required by SFAS No. 5 by requiring that guarantors disclose certain types of guarantees, even if the likelihood of requiring the guarantor's performance is remote. The following is a description of arrangements in which the Company is a guarantor.

From time to time, the Company provides guarantees of payment to vendors doing business with certain of the Company's subsidiaries or former subsidiaries. These guarantees require that in the event that the subsidiary cannot satisfy its obligations with certain of its vendors, the Company will be required to settle the obligation. Additionally, from time to time, the Company agrees

to provide indemnification to its clients in the ordinary course of business. Typically, the Company agrees to indemnify its clients for losses caused by the Company. As of July 31, 2007, the Company had no recorded liabilities with respect to these arrangements.

In 1999, a subsidiary of the Company entered into a facility lease with a term ending in November 2006. The Company issued a guaranty in connection with this lease. The Company divested of its interest in the subsidiary in 2002. During the quarter ended October 31, 2006, the Company became aware that this lease had been amended to extend the lease term through November 2016 with cumulative base rent of approximately \$16.0 million as of July 31, 2007. The Company disputes that it has any ongoing liability under this guaranty.

The Company is also a party to litigation from time to time, which it considers routine and incidental to its business. Management does not expect the results of any of such routine and incidental matters to have a material adverse effect on the Company's business, results of operation or financial condition.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, investments, intangible assets, income taxes, restructuring, valuation of long-lived assets and contingencies and litigation. Of the accounting estimates we routinely make relating to our critical accounting policies, those estimates made in the process of: preparing investment valuations; determining discounted cash flows for purposes of evaluating goodwill and intangible assets for impairment; determining future lease assumptions related to restructured facility lease obligations; and establishing income tax liabilities are the estimates most likely to have a material impact on our financial position and results of operations. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. However, because these estimates inherently involve judgments and uncertainties, there can be no assurance that actual results will not differ materially from those estimates.

The Company has identified the accounting policies below as the policies most critical to its business operations and the understanding of our results of operations. The impact and any associated risks related to these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect our reported and expected financial results. Our critical accounting policies are as follows:

- *Revenue recognition*
- *Restructuring expenses*
- *Stock-Based Compensation Expense*
- *Accounting for impairment of long-lived assets, goodwill and other intangible assets*
- *Investments*
- *Income taxes*

Revenue Recognition

The Company derives its revenue primarily from the sale of products, supply chain management services and other services. Revenue is recognized as product is shipped and related services are performed in accordance with all applicable revenue recognition criteria.

The Company recognizes revenue when persuasive evidence of an arrangement exists, title and risk of loss have passed or services have been rendered, the sales price is fixed or determinable and collection of the related receivable is reasonably assured in accordance with the Securities and Exchange Commission's ("SEC") Staff Accounting Bulletin No. 104 ("SAB No. 104"). The Company also follows the guidance of the Financial Accounting Standards Board's ("FASB") Emerging Issues Task Force ("EITF") Issue No. 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent." The Company's application of EITF 99-19 includes evaluation of the terms of each major client contract relative to a number of criteria that management considers in making its determination with respect to gross versus net reporting of revenue for transactions with its clients. Management's criteria for making these judgments place particular emphasis on determining the primary obligor in a transaction and which party bears general inventory risk. The Company records all shipping and handling fees billed to clients as revenue, and related costs as cost of sales, when incurred, in accordance with EITF 00-10, "Accounting for Shipping and Handling Fees and Costs."

The Company also follows the guidance of EITF Issue No. 00-21, "Accounting for Revenue Arrangements with Multiple Deliverables". This issue addresses determination of whether an arrangement involving more than one deliverable contains more than one unit of accounting and how the arrangement consideration should be measured and allocated to the separate units of accounting. For those contracts which contain multiple deliverables, management must first determine whether each service, or deliverable, meets the separation criteria of EITF 00-21. In general, a deliverable (or a group of deliverables) meets the separation criteria if the deliverable has standalone value to the client and if there is objective and reliable evidence of the fair value of the remaining deliverables in the arrangement. Each deliverable that meets the separation criteria is considered a "separate unit of accounting." Management allocates the total arrangement consideration to each separate unit of accounting based on the relative fair value of each separate unit of accounting. The amount of arrangement consideration that is allocated to a unit of accounting that has already been delivered is limited to the amount that is not contingent upon the delivery of another separate unit of accounting. After the arrangement consideration has been allocated to each separate unit of accounting, management applies the appropriate revenue recognition method for each separate unit of accounting as described previously based on the nature of the arrangement. All deliverables that do not meet the separation criteria of EITF 00-21 are combined into one unit of accounting and the appropriate revenue recognition method is applied.

Restructuring Expenses

The Company follows the provisions of SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" which addresses financial accounting and reporting for costs associated with exit or disposal activities. The statement requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. In accordance with this guidance, management must execute an exit plan that will result in the incurrence of costs that have no future economic benefit. The Company records liabilities that primarily include estimated severance and other costs related to employee benefits and certain estimated costs to exit equipment and facility lease obligations and other service contracts. As of July 31, 2007, the Company's accrued restructuring balance totaled approximately \$10.5 million, of which remaining contractual obligations represented approximately \$9.3 million. These contractual obligations principally represent future obligations under non-cancelable real estate leases. Restructuring estimates relating to real estate leases involve consideration of a number of factors including: potential sublet rental rates, estimated vacancy period for the property, brokerage commissions and certain other costs. Estimates relating to potential sublet rates and expected vacancy periods are most likely to have a material impact on the Company's results of operations in the event that actual amounts differ significantly from estimates. These estimates involve judgment and uncertainties, and the settlement of these liabilities could differ materially from recorded amounts. As such, in the course of making such estimates management often uses third party real estate experts to assist management in its assessment of the marketplace for purposes of estimating sublet rates and vacancy periods. A 10% – 20% unfavorable settlement of our remaining restructuring liabilities, as compared to our current estimates, would decrease our income from continuing operations by approximately \$1.0 million to \$2.1 million.

Stock-Based Compensation Plans

On August 1, 2005, the first day of the Company's fiscal year 2006, the Company adopted the provisions of SFAS No. 123(R), "Share-Based Payment" which requires the measurement and recognition of compensation expense for all stock-based payment awards made to employees and directors including employee stock options and employee stock purchases based on estimated fair values. In March 2005, the SEC issued SAB No. 107 relating to SFAS No. 123(R). The Company has applied the provisions of SAB No. 107 in its adoption of SFAS No. 123(R).

SFAS No. 123(R) requires companies to estimate the fair value of stock-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's consolidated statement of operations. SFAS No. 123(R) supersedes the Company's previous accounting under the provisions of SFAS No. 123, "Accounting for Stock-Based Compensation." As permitted by SFAS No. 123, the Company measured options, granted prior to August 1, 2005, as compensation cost in accordance with Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees" and related interpretations. Accordingly, no accounting recognition is given to stock options granted at fair market value until they are exercised. Upon exercise, net proceeds, including tax benefits realized, were credited to equity.

The Company adopted SFAS No. 123(R) using the modified prospective transition method, which requires the application of the accounting standard as of August 1, 2005. In accordance with the modified prospective transition method, the Company's consolidated financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS No. 123(R).

Stock-based compensation expense recognized during the period is based on the value of the portion of stock-based payment awards that is ultimately expected to vest during the period, reduced for estimated forfeitures. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those

estimates. In the Company's pro forma information required under SFAS No. 123 for the periods prior to August 1, 2005, the Company established estimates for forfeitures. Stock-based compensation expense recognized in the Company's consolidated statements of operations for the fiscal years ended July 31, 2007 and 2006 included compensation expense for stock-based payment awards granted prior to, but not yet vested as of July 31, 2005 based on the grant date fair value estimated in accordance with the pro forma provisions of SFAS No. 123 and compensation expense for the stock-based payment awards granted subsequent to July 31, 2005 based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123(R).

Upon adoption of SFAS No. 123(R), the Company also changed its method of valuation for stock-based awards granted after August 1, 2005 to a binomial-lattice option-pricing model ("binomial-lattice model") from the Black-Scholes option-pricing model ("Black-Scholes model") which was previously used for the Company's pro forma information required under SFAS No. 123. The Company believes that the binomial-lattice model is a more accurate model for valuing employee stock options since it better reflects the impact of stock price changes on option exercise behavior. The Company uses third party analyses to assist in developing the assumptions used in its binomial-lattice model and the resulting fair value used to record compensation expense. The Company's determination of fair value of stock-based payment awards on the date of grant using an option-pricing model is affected by the Company's stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to the Company's expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors. Any changes in these assumptions may materially affect the estimated fair value of the stock-based award.

Accounting for Impairment of Long-Lived Assets, Goodwill and Other Intangible Assets

The Company follows the provisions of SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Under SFAS No. 144, the Company tests certain long-lived assets or group of assets for recoverability whenever events or changes in circumstances indicate that the Company may not be able to recover the asset's carrying amount. SFAS No. 144 defines impairment as the condition that exists when the carrying amount of a long-lived asset or group exceeds its fair value. The Company evaluates recoverability by determining whether the undiscounted cash flows expected to result from the use and eventual disposition of that asset or group cover the carrying value at the evaluation date. If the undiscounted cash flows are not sufficient to cover the carrying value, the Company measures an impairment loss as the excess of the carrying amount of the long-lived asset or group over its fair value. Management uses third party valuation reports to assist in its determination of fair value.

The Company is required to test goodwill for impairment annually or if a triggering event occurs in accordance with the provisions of SFAS No. 142 "Goodwill and Other Intangible Assets." The Company's policy is to perform its annual impairment testing for all reporting units, determined to be the Americas, Europe and Asia operating segments, in the fourth quarter of each fiscal year. The Company's valuation methodology for assessing impairment requires management to make judgments and assumptions based on historical experience and to rely heavily on projections of future operating performance. Management uses third party valuation experts to assist in its determination of the fair value of reporting units subject to impairment testing. The Company operates in highly competitive environments and projections of future operating results and cash flows may vary significantly from actual results. If our assumptions used in preparing our valuations of the Company's reporting units for purposes of impairment testing differ materially from actual future results, the Company may record impairment charges in the future and our financial results may be materially adversely affected. The Company completed its annual impairment review of goodwill as of July 31, 2007 and has concluded that goodwill was not impaired. At July 31, 2007, the Company's carrying value of goodwill and other intangible assets totaled approximately \$178.3 million and \$11.7 million, respectively.

Investments

Marketable securities held by the Company, which meet the criteria for classification as available-for-sale are carried at fair value. Unrealized holding gains and losses on securities classified as available-for-sale are carried net of income taxes, when applicable, as a component of accumulated other comprehensive income (loss) in the accompanying consolidated statements of stockholders' equity.

The Company maintains interests in several privately held companies primarily through its various venture capital funds. The Company's venture capital business ("@Ventures") invests in early-stage technology companies. These investments are generally made in connection with a round of financing with other third-party investors. At July 31, 2007, the Company's carrying value of investments in privately held companies was approximately \$30.5 million. Investments in which the Company's interest is less than 20% and which are not classified as available-for-sale securities are carried at the lower of cost or net realizable value unless it is determined that the Company exercises significant influence over the investee company, in which case the equity method of accounting is used. For those investments in which the Company's voting interest is between 20% and 50%, the equity method of accounting is generally used. Under this method, the investment balance, originally recorded at cost, is adjusted to recognize the Company's share of net earnings or losses of the investee company as they occur, limited to the extent of the Company's investment in, advances to and commitments for the investee. The Company's share of the net earnings or losses of the investee are reflected in "Equity in income (losses) of affiliates, net" in the Company's accompanying consolidated statements of operations.

The Company assesses the need to record impairment losses on its investments and records such losses when the impairment of an investment is determined to be other than temporary in nature. The process of assessing whether a particular equity investment's net realizable value is less than its carrying cost requires a significant amount of judgment. This valuation process is based primarily on information that the Company requests from these privately held companies who are not subject to the same disclosure and audit requirements as the reports required of U.S. public companies. As such, the reliability and accuracy of the data may vary. Based on the Company's evaluation, it recorded impairment charges related to its investments in privately held companies accounted for under the equity method of accounting of approximately \$1.0 million, \$0.6 million, and \$0.4 million for the fiscal years ended 2007, 2006, and 2005, respectively. These impairment losses are reflected in "Equity in income (losses) of affiliates, net" in the Company's accompanying consolidated statements of operations.

Estimating the net realizable value of investments in privately held early-stage technology companies is inherently subjective and has contributed to significant volatility in our reported results of operations in the past and it may negatively impact our results of operations in the future. We may incur additional impairment charges to our equity investments in privately held companies, which could have an adverse impact on our future results of operations. A decline in the carrying value of our approximately \$30.5 million of investments in affiliates at July 31, 2007 ranging from 10% to 20%, respectively, would decrease our income from continuing operations by approximately \$3.0 million to \$6.1 million.

At the time an equity method investee sells its stock to unrelated parties at a price in excess of its book value, the Company's net investment in that affiliate increases. If at that time, the affiliate is not a newly formed, non-operating entity, or a research and development company, start-up or development stage company, and if the affiliate appears to have the ability to continue in existence, the Company records the increase as a gain in its accompanying consolidated statement of operations. As of July 31, 2007, no such gains had been recorded related to any @Ventures investments.

Income Taxes

Income taxes are accounted for under the provisions of SFAS No. 109, "Accounting for Income Taxes," using the asset and liability method whereby deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. SFAS No. 109 also requires that the deferred tax assets be reduced by a valuation allowance, if based on the weight of available evidence, it is more likely than not that some portion or all of the recorded deferred tax assets will not be realized in future periods. This methodology is subjective and requires significant estimates and judgments in the determination of the recoverability of deferred tax assets and in the calculation of certain tax liabilities. At July 31, 2007 and 2006, respectively, a valuation allowance has been recorded against the gross deferred tax asset in the U.S. and certain of its foreign subsidiaries since management believes that after considering all the available objective evidence, both positive and negative, historical and prospective, with greater weight given to historical evidence, it is more likely than not that these assets will not be realized. In each reporting period, we evaluate the adequacy of our valuation allowance on our deferred tax assets. In the future, if the Company is able to demonstrate a consistent trend of pre-tax income, then at that time management may reduce its valuation allowance, accordingly. The Company's federal, state and foreign net operating loss carryforwards at July 31, 2007 totaled \$2.0 billion, \$2.1 billion and \$68.8 million, respectively. A 5% reduction in the Company's current valuation allowance on these federal and state net operating loss carryforwards would result in an income tax benefit of approximately \$41.0 million.

In addition, the calculation of the Company's tax liabilities involves dealing with uncertainties in the application of complex tax regulations in several tax jurisdictions. The Company is periodically reviewed by domestic and foreign tax authorities regarding the amount of taxes due. These reviews include questions regarding the timing and amount of deductions and the allocation of income among various tax jurisdictions. In evaluating the exposure associated with various filing positions, we record estimated reserves for probable exposures. Based on our evaluation of current tax positions, the Company believes it has appropriately accrued for exposures.

RECENT ACCOUNTING PRONOUNCEMENTS

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" including an amendment of SFAS No. 115, which permits companies to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for the Company beginning in fiscal 2009. The Company is currently evaluating SFAS No. 159 and the impact, if any, that it may have on its results of operations or financial position.

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans" an amendment of FASB Statements No. 87, 88, 106, and 132 (R). SFAS No. 158 requires an employer to recognize the over-funded or under-funded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. SFAS No. 158 also requires the measurement of defined benefit plan assets and obligations as of the date of the employer's fiscal year-end statement of financial position (with limited exceptions). The Company adopted SFAS No.158, as required, as of July 31, 2007 and the effect of adoption was not material. (See Note 16)

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 is effective for the Company beginning in fiscal 2009. The Company is currently evaluating the impact, if any, that SFAS No. 157 may have on its results of operations or financial position.

In September 2006, the SEC issued SAB No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements". This SAB provides guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. SAB 108 establishes an approach that requires quantification of financial statement errors based on the effects of each of the company's balance sheet and statement of operations financial statements and the related financial statement disclosures. The SAB permits existing public companies to record the cumulative effect of initially applying this approach in the first year ending after November 15, 2006 by recording the necessary correcting adjustments to the carrying values of assets and liabilities as of the beginning of that year with the offsetting adjustment recorded to the opening balance of retained earnings. Additionally, the use of the cumulative effect transition method requires detailed disclosure of the nature and amount of each individual error being corrected through the cumulative adjustment and how and when it arose. The Company's adoption of SAB No. 108 as of July 31, 2007 did not have an impact on the Company's results of operations or financial position.

In July 2006, the FASB issued FASB Interpretation No. 48 (FIN 48), "Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109." This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Interpretation is effective for fiscal years beginning after December 15, 2006. Accordingly, the Company will adopt FIN 48 on August 1, 2007, as required. The cumulative effect of adopting FIN 48, if any, will be recorded as an adjustment to the Company's opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position). The Company is in the process of assessing the impact of this interpretation.

ITEM 7A.— QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to the impact of interest rate changes, foreign currency exchange rate fluctuations and changes in the market values of its investments. The carrying values of financial instruments including cash and cash equivalents, accounts receivable, accounts payable and the revolving line of credit, approximate fair value because of the short-term nature of these instruments. The carrying value of capital lease obligations approximates fair value, as estimated by using discounted future cash flows based on the Company's current incremental borrowing rates for similar types of borrowing arrangements. As a matter of policy, the Company does not enter into derivative financial instruments for trading purposes. All derivative positions are used to reduce risk by hedging underlying economic or market exposure and are valued at their fair value on our consolidated balance sheets and adjustments to the fair value during this holding period are recorded in the statement of operations.

Interest Rate Risk

At July 31, 2007, the Company was primarily exposed to the Prime Rate and LIBOR on its outstanding borrowing arrangements, and the Company had no open derivative positions with respect to its borrowing arrangements. A hypothetical 100 basis point increase in our interest rates would have resulted in an approximately 10%, or \$0.2 million, increase in our interest expense for the fiscal year ended July 31, 2007.

We maintain a portfolio of highly liquid cash equivalents typically maturing in three months or less as of the date of purchase. We place our investments in instruments that meet high credit quality standards, as specified in our investment policy and include corporate and state municipal obligations such as commercial paper, certificates of deposit and institutional market funds.

Our exposure to market risk for changes in interest rates relates primarily to our investment in short-term investments. As of the fiscal year ended July 31, 2007, we had available-for-sale securities, a significant portion of which are classified as short-term investments on our accompanying consolidated balance sheet. These short-term investments include auction rate securities ("ARS"). The auction rate securities are adjustable-rate securities with dividend rates that are reset periodically by bidders through

“Dutch auctions” generally conducted every 7 to 90 days by a trust company or broker/dealer on behalf of the issuer. We believe these securities are highly liquid investments through the related auctions; however, the collateralizing securities have stated terms of up to thirty years. These instruments are rated AAA by Moody’s and Fitch ratings. Our short-term investments are intended to establish a high-quality portfolio that preserves principal, meets liquidity needs, avoids inappropriate concentrations and delivers an appropriate yield in relationship to our investments guidelines and market conditions.

Foreign Currency Risk

The Company has operations in various countries and currencies throughout the world and its operating results and financial position are subject to greater exposure from significant fluctuations in foreign currency exchange rates. The Company has historically used derivative financial instruments, on a limited basis, principally foreign currency exchange contracts, to manage the transaction exposure that results from such fluctuations.

International revenues from our foreign operating segments accounted for approximately 67% of total revenues during the fiscal year ended July 31, 2007. A portion of our international sales made by our foreign business units in their respective countries is denominated in the local currency of each country. These business units also incur a portion of their expenses in the local currency.

Primary currencies include Euros, Singapore Dollars, British Pounds, Chinese Renminbi, Hungarian Forints, Czech Koruna, Taiwan Dollars and Japanese Yen. The income statements of our international operations are translated into U.S. dollars at the average exchange rates in each applicable period. To the extent the U.S. dollar weakens against foreign currencies, the translation of these foreign currency denominated transactions results in increased revenues and operating expenses for our international operations. Similarly, our revenues and operating expenses will decrease for our international operations when the U.S. dollar strengthens against foreign currencies. While we attempt to balance local currency revenue to local currency expenses to provide in effect a natural hedge, it is not always possible to completely reduce the foreign currency exchange risk due to competitive and other reasons. We estimate operating income was negatively impacted due to foreign currency exposure by approximately \$3.9 million in the Asia region and \$5.0 million in the Europe region during fiscal 2007.

The conversion of the foreign subsidiaries’ financial statements into U.S. dollars will lead to a translation gain or loss which is recorded as a component of other comprehensive income (loss). For the fiscal year ended July 31, 2007, we recorded foreign currency translation gains of approximately \$2.7 million. In addition, certain of our foreign subsidiaries have assets and liabilities that are denominated in currencies other than the relevant entity’s functional currency. Changes in the functional currency value of these assets and liabilities create fluctuations that will lead to a transaction gain or loss. For the fiscal year ended July 31, 2007, we recorded foreign currency transaction losses of approximately \$2.8 million which are recorded in “Other gains, net” in our consolidated statement of operations.

Our international business is subject to risks, including, but not limited to differing economic conditions, changes in political climate, differing tax structures, other regulations and restrictions, and foreign currency exchange rate volatility when compared to the United States. Accordingly, our future results could be materially adversely impacted by changes in these or other factors. As exchange rates vary, our international financial results may vary from expectations and adversely impact our overall operating results.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
CMGI, Inc.:

We have audited the accompanying consolidated balance sheets of CMGI, Inc. and subsidiaries as of July 31, 2007 and 2006, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the years in the three-year period ended July 31, 2007. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of CMGI, Inc. and subsidiaries as of July 31, 2007 and 2006, and the results of their operations and their cash flows for each of the years in the three-year period ended July 31, 2007, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), CMGI, Inc.'s internal control over financial reporting as of July 31, 2007, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated October 15, 2007, expressed an unqualified opinion on the effectiveness of internal control over financial reporting.

CMGI, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) NATURE OF OPERATIONS

CMGI, Inc. (together with its consolidated subsidiaries, “CMGI” or the “Company”), through its subsidiary, ModusLink Corporation (“ModusLink”), provides end-to-end global supply chain management solutions that help businesses market, sell and distribute their products and services. ModusLink services technology-based clients in the computing, software, consumer electronics, storage and communications markets. ModusLink had fiscal 2007 revenue of approximately \$1.1 billion, 34 facilities in 12 countries with a significant presence in Asia and Europe. In addition, CMGI’s venture capital business, @Ventures, invests in a variety of technology ventures. On April 2, 2007, ModusLink acquired full ownership of the joint venture through which it operated in Japan. ModusLink previously had a 40% interest in this entity. The Company previously operated under the name CMG Information Services, Inc. and was incorporated in Delaware in 1986. CMGI’s address is 1100 Winter Street, Suite 4600, Waltham, Massachusetts 02451.

CMGI’s business strategy in recent years has led to the development, acquisition and operation of majority-owned subsidiaries focused on supply chain management services, as well as the investment in emerging, innovative and promising technology companies.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements reflect the application of certain significant accounting policies described below.

Principles of Consolidation

The accompanying consolidated financial statements of the Company include the results of its wholly-owned and majority-owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation. The Company accounts for investments in businesses in which it owns between 20% and 50% of its voting interest using the equity method, if the Company has the ability to exercise significant influence over the investee company. All other investments for which the Company does not have the ability to exercise significant influence or for which there is not a readily determinable market value, are accounted for under the cost method of accounting. Certain amounts for prior periods have been reclassified to conform to current year presentations.

Use of Estimates

The preparation of the Company’s consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis the Company evaluates its estimates including those related to revenue recognition, inventories, investments, intangible assets, income taxes, restructuring, valuation of long-lived assets, contingencies and litigation. Accounting estimates are based on historical experience and various assumptions that are considered reasonable under the circumstances. However, because these estimates inherently involve judgments and uncertainties, actual results could differ materially from those estimated.

Revenue Recognition

The Company derives its revenue primarily from the sale of products, supply chain management services and other services. Revenue is recognized as product is shipped and related services are performed in accordance with all applicable revenue recognition criteria.

The Company recognizes revenue when persuasive evidence of an arrangement exists, title and risk of loss have passed or services have been rendered, the sales price is fixed or determinable and collection of the related receivable is reasonably assured in accordance with the Securities and Exchange Commission’s (“SEC”) Staff Accounting Bulletin No. 104 (“SAB No. 104”). The Company also follows the guidance of the Financial Accounting Standards Board’s (“FASB”) Emerging Issues Task Force (“EITF”) Issue No. 99-19, “Reporting Revenue Gross as a Principal versus Net as an Agent.” The Company’s application of EITF 99-19 includes evaluation of the terms of each major client contract relative to a number of criteria that management considers in making its determination with respect to gross versus net reporting of revenue for transactions with its clients. Management’s criteria for making these judgments place particular emphasis on determining the primary obligor in a transaction and which party bears general inventory risk. The Company records all shipping and handling fees billed to clients as revenue, and related costs as cost of sales, when incurred, in accordance with EITF 00-10, “Accounting for Shipping and Handling Fees and Costs.”

CMGI, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company also follows the guidance of EITF Issue No. 00-21, “Accounting for Revenue Arrangements with Multiple Deliverables”. This issue addresses determination of whether an arrangement involving more than one deliverable contains more than one unit of accounting and how the arrangement consideration should be measured and allocated to the separate units of accounting. For those contracts which contain multiple deliverables, management must first determine whether each service, or deliverable, meets the separation criteria of EITF 00-21. In general, a deliverable (or a group of deliverables) meets the separation criteria if the deliverable has standalone value to the client and if there is objective and reliable evidence of the fair value of the remaining deliverables in the arrangement. Each deliverable that meets the separation criteria is considered a “separate unit of accounting.” Management allocates the total arrangement consideration to each separate unit of accounting based on the relative fair value of each separate unit of accounting. The amount of arrangement consideration that is allocated to a unit of accounting that has already been delivered is limited to the amount that is not contingent upon the delivery of another separate unit of accounting. After the arrangement consideration has been allocated to each separate unit of accounting, management applies the appropriate revenue recognition method for each separate unit of accounting as described previously based on the nature of the arrangement. All deliverables that do not meet the separation criteria of EITF 00-21 are combined into one unit of accounting and the appropriate revenue recognition method is applied.

Foreign Currency Translation

All assets and liabilities of the Company’s foreign subsidiaries, whose functional currency is the local currency, are translated to U.S. dollars at the rates in effect at the balance sheet date. All amounts in the accompanying statement of operations are translated using the average exchange rates in effect during the year. Resulting translation adjustments are reflected in the accumulated other comprehensive income (loss) component of stockholders’ equity. Foreign currency transaction gains and losses are included in “Other gains and (losses), net”.

Cash, Cash Equivalents and Short-term Investments

The Company considers all highly liquid investments with original maturities of 90 days or less at the time of purchase to be cash equivalents. Investments with maturities greater than 90 days to twelve months at the time of purchase are considered short-term investments.

Fair Value of Financial Instruments

The carrying value for cash and cash equivalents, accounts and notes receivable, accounts payable, non-current liabilities and the revolving line of credit approximates fair value because of the short maturity of these instruments. The carrying value of capital lease obligations approximates fair value, as estimated by using discounted future cash flows based on the Company’s current incremental borrowing rates for similar types of borrowing arrangements.

Investments

Marketable securities held by the Company, which meet the criteria for classification as available-for-sale are carried at fair value. Unrealized holding gains and losses on securities classified as available-for-sale are carried net of income taxes, when applicable, as a component of accumulated other comprehensive income (loss) in the accompanying consolidated statements of stockholders’ equity.

The Company maintains interests in several privately held companies primarily through its various venture capital funds. The Company’s venture capital business, @Ventures, invests in early-stage technology companies. These investments are generally made in connection with a round of financing with other third-party investors. Investments in which the Company’s interest is less than 20% and which are not classified as available-for-sale securities are carried at the lower of cost or net realizable value unless it is determined that the Company exercises significant influence over the investee company, in which case the equity method of accounting is used. For those investments in which the Company’s voting interest is between 20% and 50%, the equity method of accounting is generally used. Under this method, the investment balance, originally recorded at cost, is adjusted to recognize the Company’s share of net earnings or losses of the investee company as they occur, limited to the extent of the Company’s investment in, advances to and commitments for the investee. The Company’s share of net earnings or losses of the investee are reflected in “Equity in income (losses) of affiliates, net” in the Company’s accompanying consolidated statements of operations.

The Company assesses the need to record impairment losses on its investments and records such losses when the impairment of an investment is determined to be other than temporary in nature. The process of assessing whether a particular equity

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

investment's net realizable value is less than its carrying cost requires a significant amount of judgment. This valuation process is based primarily on information that the Company requests from these privately held companies who are not subject to the same disclosure and audit requirements as the reports required of U.S. public companies. As such, the reliability and accuracy of the data may vary. Based on the Company's evaluation, it recorded impairment charges related to its investments in privately held companies accounted for under the equity method of accounting of approximately \$1.0 million, \$0.6 million, and \$0.4 million for the fiscal years ended 2007, 2006, and 2005, respectively. These impairment losses are reflected in "Equity in income (losses) of affiliates, net" in the Company's accompanying consolidated statements of operations.

At the time an equity method investee sells its stock to unrelated parties at a price in excess of its book value, the Company's net investment in that affiliate increases. If at that time, the affiliate is not a newly formed, non-operating entity, or a research and development company, start-up or development stage company, and the affiliate appears to have the ability to continue in existence, the Company records the increase as a gain in its accompanying consolidated statement of operations.

Inventory

Inventories are stated at the lower of cost or market. Cost is primarily determined by the first-in, first-out ("FIFO") method.

Inventories consisted of the following:

	July 31,	
	2007	2006
	(in thousands)	
Raw materials	\$42,388	\$48,539
Work-in-process	934	1,248
Finished goods	17,623	28,100
	\$60,945	\$77,887

Long-Lived Assets, Goodwill and Other Intangible Assets

The Company follows SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Under SFAS No. 144, the Company tests certain long-lived assets or group of assets for recoverability whenever events or changes in circumstances indicate that the Company may not be able to recover the asset's carrying amount. SFAS No. 144 defines impairment as the condition that exists when the carrying amount of a long-lived asset or group exceeds its fair value. The Company evaluates recoverability by determining whether the undiscounted cash flows expected to result from the use and eventual disposition of that asset or group cover the carrying value at the evaluation date. If the undiscounted cash flows are not sufficient to cover the carrying value, the Company measures an impairment loss as the excess of the carrying amount of the long-lived asset or group over its fair value. Management uses third party valuation reports to assist in its determination of fair value.

The Company is required to test goodwill for impairment annually or if a triggering event occurs in accordance with the provisions of SFAS No. 142 "Goodwill and Other Intangible Assets." The Company's policy is to perform its annual impairment testing for all reporting units, determined to be the Americas, Europe and Asia operating segments, in the fourth quarter of each fiscal year. The Company's valuation methodology for assessing impairment requires management to make judgments and assumptions based on historical experience and to rely heavily on projections of future operating performance. Management uses third party valuation experts to assist in its determination of the fair value of reporting units subject to impairment testing. The Company operates in highly competitive environments and projections of future operating results and cash flows may vary significantly from actual results. If our assumptions used in estimating our valuations of the Company's reporting units for purposes of impairment testing differ materially from actual future results, the Company may record impairment charges in the future and our financial results may be materially adversely affected. The Company completed its annual impairment review of goodwill as of July 31, 2007 and has concluded that goodwill was not impaired.

Restructuring Expenses

The Company follows the provisions of SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" which addresses financial accounting and reporting for costs associated with exit or disposal activities. The statement requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. In accordance with this guidance, management must execute an exit plan that will result in

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

the incurrence of costs that have no future economic benefit. The Company records liabilities that primarily include estimated severance and other costs related to employee benefits and certain estimated costs to exit equipment and facility lease obligations and other service contracts. These contractual obligations principally represent future obligations under non-cancelable real estate leases. Restructuring estimates relating to real estate leases involve consideration of a number of factors including: potential sublet rental rates, estimated vacancy period for the property, brokerage commissions and certain other costs. Estimates relating to potential sublet rates and expected vacancy periods are most likely to have a material impact on the Company's results of operations in the event that actual amounts differ significantly from estimates. These estimates involve judgment and uncertainties, and the settlement of these liabilities could differ materially from recorded amounts.

Property and Equipment

Property, plant and equipment are stated at cost. Depreciation and amortization is provided on the straight-line basis over the estimated useful lives of the respective assets. Leasehold improvements are amortized on a straight-line basis over the lesser of the estimated useful life of the asset or the lease term. The Company capitalizes certain computer software development costs when incurred in connection with developing or obtaining computer software for internal use. The estimated useful lives are as follows:

Buildings	32 years
Machinery & equipment	3 to 5 years
Furniture & fixtures	5 to 7 years
Automobiles	5 years
Leasehold improvements	5 to 7 years
Software	3 to 5 years

Maintenance and repairs are charged to operating expenses as incurred. Major renewals and betterments are added to property and equipment accounts at cost.

Income Taxes

Income taxes are accounted for under the provisions of SFAS No. 109, "Accounting for Income Taxes," using the asset and liability method whereby deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. SFAS No. 109 also requires that the deferred tax assets be reduced by a valuation allowance, if based on the weight of available evidence, it is more likely than not that some portion or all of the recorded deferred tax assets will not be realized in future periods. This methodology is subjective and requires significant estimates and judgments in the determination of the recoverability of deferred tax assets and in the calculation of certain tax liabilities. At July 31, 2007 and 2006, respectively, a valuation allowance has been recorded against the gross deferred tax asset in the U.S. and certain of its foreign subsidiaries since management believes that after considering all the available objective evidence, both positive and negative, historical and prospective, with greater weight given to historical evidence, it is more likely than not that these assets will not be realized. In each reporting period, we evaluate the adequacy of our valuation allowance on our deferred tax assets. In the future, if the Company is able to demonstrate a consistent trend of pre-tax income, then at that time management may reduce its valuation allowance, accordingly.

In addition, the calculation of the Company's tax liabilities involves dealing with uncertainties in the application of complex tax regulations in several tax jurisdictions. The Company is periodically reviewed by domestic and foreign tax authorities regarding the amount of taxes due. These reviews include questions regarding the timing and amount of deductions and the allocation of income among various tax jurisdictions. In evaluating the exposure associated with various filing positions, we record estimated reserves for probable exposures. Based on our evaluation of current tax positions, the Company believes it has appropriately accrued for exposures.

Earnings (Loss) Per Share

The Company calculates earnings per share in accordance with SFAS No. 128, "Earnings per Share". Basic earnings per share are computed based on the weighted average number of common shares outstanding during the period. The dilutive effects of common stock equivalents are included in the calculation of diluted earnings per share only when the effect of their inclusion would be dilutive. Approximately 3.8 million, 3.3 million and 8.3 million weighted average common stock equivalents were

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

included in the denominator in the calculation of dilutive earnings per share for the years ended July 31, 2007, 2006 and 2005, respectively. Approximately 5.6 million, 7.3 million and 4.1 million common stock equivalent shares and approximately 1.1 million, 0.8 million and 0.4 million nonvested shares were excluded from the denominator in the diluted earnings per share calculation for the years ended July 31, 2007, 2006 and 2005, respectively, as their inclusion would have been antidilutive.

Stock-Based Compensation Plans

On August 1, 2005, the first day of the Company's 2006 fiscal year, the Company adopted the provisions of SFAS No. 123(R), "Share-Based Payment" which requires the measurement and recognition of compensation expense for all stock-based payment awards made to employees and directors including employee stock options and employee stock purchases based on estimated fair values. In March 2005, the SEC issued SAB No. 107 relating to SFAS No. 123(R). The Company has applied the provisions of SAB No. 107 in its adoption of SFAS No. 123(R).

SFAS No. 123(R) requires companies to estimate the fair value of stock-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's consolidated statement of operations. SFAS No. 123(R) supersedes the Company's previous accounting under the provisions of SFAS No. 123, "Accounting for Stock-Based Compensation." As permitted by SFAS No. 123, the Company measured options, granted prior to August 1, 2005, as compensation cost in accordance with Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees" and related interpretations. Accordingly, no accounting recognition was given to stock options granted at fair market value until they were exercised. Upon exercise, net proceeds, including tax benefits realized, were credited to equity.

The Company adopted SFAS No. 123(R) using the modified prospective transition method, which requires the application of the accounting standard as of August 1, 2005. In accordance with the modified prospective transition method, the Company's consolidated financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS No. 123(R).

Stock-based compensation expense recognized during the period is based on the value of the portion of stock-based payment awards that is ultimately expected to vest during the period, reduced for estimated forfeitures. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. In the Company's pro forma information required under SFAS No. 123 for the periods prior to August 1, 2005, the Company established estimates for forfeitures. Stock-based compensation expense recognized in the Company's consolidated statements of operations for the fiscal years ended July 31, 2007 and 2006 included compensation expense for stock-based payment awards granted prior to, but not yet vested as of July 31, 2005 based on the grant date fair value estimated in accordance with the pro forma provisions of SFAS No. 123 and compensation expense for the stock-based payment awards granted subsequent to July 31, 2005 was based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123(R).

Upon adoption of SFAS No. 123(R), the Company also changed its method of valuation for stock-based awards granted after August 1, 2005 to a binomial-lattice option-pricing model ("binomial-lattice model") from the Black-Scholes option-pricing model ("Black-Scholes model") which was previously used for the Company's pro forma information required under SFAS No. 123. The Company believes that the binomial-lattice model is a more accurate model for valuing employee stock options since it better reflects the impact of stock price changes on option exercise behavior. The Company uses third party analyses to assist in developing the assumptions used in its binomial-lattice model and the resulting fair value used to record compensation expense. The Company's determination of fair value of stock-based payment awards on the date of grant using an option-pricing model is affected by the Company's stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to the Company's expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors. Any changes in these assumptions may materially affect the estimated fair value of the stock-based award.

Major Clients and Concentration of Credit Risk

Sales to two clients, Hewlett-Packard and Advanced Micro Devices, accounted for approximately 31% and 11%, respectively, of the Company's consolidated net revenue for the fiscal year ended July 31, 2007. Sales to two clients, Hewlett-Packard and Kodak, accounted for approximately 30% and 11%, respectively, of the Company's consolidated net revenue for the fiscal year ended July 31, 2006. Sales to one client, Hewlett-Packard, accounted for approximately 36% of the Company's consolidated net revenue for the fiscal year ended July 31, 2005. During fiscal 2007 and 2006 five clients accounted for approximately 62% and 60% of the Company's consolidated net revenue, respectively. Accounts receivable from these clients amounted to approximately

CMGI, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

42% and 45% of our total trade accounts receivable balance at July 31, 2007 and 2006, respectively. To reduce risk, the Company performs ongoing credit evaluations of its clients' financial condition. The Company generally does not require collateral on accounts receivable. The Company maintains an allowance for doubtful accounts based on its assessment of the collectibility of accounts receivable.

Financial instruments, which potentially subject the Company to concentrations of credit risk are cash, cash equivalents, available-for-sale securities, short-term investments, accounts receivable, accounts payable, the revolving line of credit and long-term debt, including capital lease obligations. The Company's cash equivalent and short-term investment portfolio is diversified and consists primarily of short-term investment grade securities placed with high credit quality financial institutions.

Derivative Instruments and Hedging Activities

The Company enters into forward foreign currency exchange rate contracts to manage exposures to certain foreign currencies. The fair value of the Company's foreign currency exchange rate contracts is estimated based on the foreign currency exchange rates as of July 31, 2007. The Company's policy is not to allow the use of derivatives for trading or speculative purposes. At July 31, 2007, the notional value of the Company's foreign currency exchange contracts was to sell 7.6 million U.S. dollars and to buy 3.0 million Euro and 0.7 million British Pounds.

The Company believes that its forward foreign currency exchange rate contracts economically function as effective hedges of the underlying exposures; however, the forward foreign currency exchange rate contracts do not meet the specific criteria for hedge accounting defined in SFAS No. 133, thus requiring the Company to record all changes in the fair value of these contracts in earnings in the period of the change. Unrealized gains or losses are included in "Other gains (losses), net" in the Company's accompanying consolidated statements of operations and amounts were not material for the three years presented.

Recent Accounting Pronouncements

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" including an amendment of SFAS No. 115, which permits companies to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for the Company beginning in fiscal 2009. The Company is currently evaluating SFAS No. 159 and the impact, if any, that it may have on its results of operations or financial position.

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans" an amendment of FASB Statements No. 87, 88, 106, and 132 (R). SFAS No. 158 requires an employer to recognize the over-funded or under-funded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. SFAS No. 158 also requires the measurement of defined benefit plan assets and obligations as of the date of the employer's fiscal year-end statement of financial position (with limited exceptions). The Company adopted SFAS No.158, as required, as of July 31, 2007 and the effect of adoption was not material. (See Note 16)

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 is effective for the Company beginning in fiscal 2009. The Company is currently evaluating the impact, if any, that SFAS No. 157 may have on its results of operations or financial position.

In September 2006, the SEC issued SAB No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements." This SAB provides guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. SAB 108 establishes an approach that requires quantification of financial statement errors based on the effects of each of the company's balance sheet and statement of operations financial statements and the related financial statement disclosures. The SAB permits existing public companies to record the cumulative effect of initially applying this approach in the first year ending after November 15, 2006 by recording the necessary correcting adjustments to the carrying values of assets and liabilities as of the beginning of that year with the offsetting adjustment recorded to the opening balance of retained earnings. Additionally, the use of the cumulative effect transition method requires detailed disclosure of the nature and amount of each individual error being corrected through the cumulative adjustment and how and when it arose. The Company's adoption of SAB No. 108 as of July 31, 2007 did not have an impact on the Company's results of operations or financial position.

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

In July 2006, the FASB issued FASB Interpretation No. 48 (FIN 48), “Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109.” This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Interpretation is effective for fiscal years beginning after December 15, 2006. Accordingly, the Company will adopt FIN 48 on August 1, 2007, as required. The cumulative effect of adopting FIN 48, if any, will be recorded as an adjustment to the Company’s opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position). The Company is in the process of assessing the impact of this interpretation.

(3) CASH, CASH EQUIVALENTS AND SHORT-TERM INVESTMENTS

The Company classifies all highly liquid investments with original maturities of 90 days or less at the time of purchase as a cash equivalent. Investments with maturities greater than 90 days to twelve months at the time of purchase are considered short-term investments.

As of July 31, 2007 and 2006, the Company had short-term investments in Auction Rate Securities (“ARS”) of approximately \$111.8 million and \$94.5 million, respectively. ARS generally have long-term stated maturities of 20 to 30 years. However, these securities have certain economic characteristics of short-term investments due to a rate-setting mechanism and the ability to liquidate them through a Dutch auction process that occurs on pre-determined intervals of less than 90 days. These ARS are classified as short-term investments on the accompanying consolidated balance sheets due to management’s ability and intent regarding these securities and are accounted for as available-for-sale, in accordance with SFAS No. 115 “Accounting for Certain Investments in Debt and Equity Securities.” As of July 31, 2007 and 2006, respectively, there were no unrealized gains or losses associated with these investments as cost approximates fair value.

(4) STATEMENT OF CASH FLOWS SUPPLEMENTAL INFORMATION

Cash used for operating activities reflect cash payments for interest and income taxes as follows:

	July 31,		
	2007	2006	2005
	(in thousands)		
Cash paid for interest	\$2,346	\$2,950	\$1,496
Cash paid for income taxes	\$4,621	\$1,575	\$1,935

Significant non-cash investing activities during fiscal 2007 and 2006 included the issuance of approximately 1.3 million and 0.6 million shares of nonvested CMGI common stock, respectively, valued at approximately \$2.4 million and \$0.9 million, respectively, to certain executives of the Company.

During fiscal 2005, significant non-cash activities primarily included the issuance of approximately 68.6 million shares of CMGI common stock and assumed or substituted options to purchase approximately 12.6 million shares of CMGI common stock in connection with the acquisition of Modus. The Company also issued approximately 2.5 million shares of nonvested CMGI common stock (valued at approximately \$3.6 million) to certain executives and employees of Modus in connection with the acquisition, which shares vested in August 2005. In addition, approximately 2.9 million nonvested shares of the Company’s common stock, valued at approximately \$6.8 million, were issued to certain executives and employees of the Company.

(5) SEGMENT INFORMATION

Based on the information provided to the Company’s chief operating decision-maker (“CODM”) for purposes of making decisions about allocating resources and assessing performance, the Company reports three operating segments, Americas, Asia, and Europe. In addition to its three operating segments, the Company reports an Other category. The Other category represents corporate expenses consisting primarily of costs associated with certain corporate administrative functions such as legal and finance which are not fully allocated to the Company’s subsidiary companies, administration costs related to the Company’s venture capital affiliates and any residual results of operations from previously divested operations. The Other category’s balance sheet information includes cash and cash equivalents, available-for-sale securities, investments and other assets, which are not identifiable to the operations of the Company’s operating business segments.

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Management evaluates segment performance based on segment net revenue, operating income (loss) and “Non-GAAP operating income (loss)”, which is defined as the operating income (loss) excluding net charges related to depreciation, long-lived asset impairment, amortization of intangible assets, stock-based compensation and restructuring. The Company believes that its Non-GAAP measure of operating income (loss) provides investors with a useful supplemental measure of the Company’s operating performance by excluding the impact of non-cash charges and restructuring activities. Each of the excluded items (depreciation, long-lived asset impairment, amortization of intangible assets and stock-based compensation and restructuring) were excluded because they may be considered to be of a non-operational or non-cash nature. Historically, the Company has recorded significant impairment and restructuring charges and therefore management uses Non-GAAP operating income (loss) to assist in evaluating the performance of the Company’s core operations. Non-GAAP operating income (loss) does not have any standardized definition and therefore is unlikely to be comparable to similar measures presented by other reporting companies. These Non-GAAP results should not be evaluated in isolation of, or as a substitute for, the Company’s financial results prepared in accordance with U.S. GAAP.

Our international operations subject us to exposure to foreign currency exchange rate fluctuations. Revenues and related expenses generated from our international segments are generally denominated in the functional currencies of the local countries. Primary currencies include Euros, Singapore Dollars, British Pounds, Czech Koruna, Hungarian Forints, Chinese Renminbi, Taiwan Dollars and Japanese Yen. The income statements of our international operations are translated into U.S. dollars at the average exchange rates in each applicable period. To the extent the U.S. dollar weakens against foreign currencies, the translation of these foreign currency denominated transactions results in increased revenues and operating expenses for our Asia and Europe segments. Similarly, our revenues and operating expenses will decrease for our Asia and Europe segments when the U.S. dollar strengthens against foreign currencies.

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

As of July 31, 2007 approximately 43%, 38% and 19% of the Company's long-lived assets were located in the United States, Asia and Europe, respectively. As of July 31, 2006 approximately 47%, 36% and 17% of the Company's long-lived assets were located in the United States, Asia and Europe, respectively.

(6) DISCONTINUED OPERATIONS AND DIVESTITURES

For the year ended July 31, 2007, the Company recorded income from discontinued operations of approximately \$0.3 million primarily related to adjustments to previously recorded estimates for facility lease obligations based on changes to the underlying assumptions regarding the estimated length of time of the subleased space and the expected rent recovery rate related to the vacant space.

For the year ended July 31, 2006, the Company recorded a loss from discontinued operations of approximately \$13.7 million primarily related to the discontinued operations and sale of the Company's marketing distribution services business, SalesLink. This business unit had previously been included within the Company's Americas reporting segment. The \$13.7 million loss from discontinued operations is comprised of net operating charges of \$9.6 million and a \$1.5 million loss on sale of SalesLink's marketing distribution services business. The Company also recorded a \$2.6 million impairment charge to a previously recorded loss on sale of Tallan for an other than temporary decline in the carrying value of a note receivable and warrant. The net operating charges include revenues of \$13.3 million, expenses of \$14.6 million, a charge of \$5.6 million for unutilized facility and equipment leases and a non-cash charge of \$2.7 million for the write down of goodwill.

For the year ended July 31, 2005, the Company recorded a loss from discontinued operations of approximately \$4.2 million. The \$2.1 million of operating loss from discontinued operations is composed of revenues of \$16.3 million and total operating expenses of \$18.4 million as a result of the sale of the Company's marketing distribution services business unit, SalesLink, in fiscal 2006. The remaining \$2.0 million is attributable to the settlement of litigation brought against the Company by the Official Committee of Unsecured Creditors of Engage, Inc.

Summarized financial information for the discontinued operations of the Company are as follows:

	Years Ended July 31,		
	2007	2006	2005
	(in thousands)		
Results of operations:			
Net revenues	\$—	\$ 13,267	\$ 16,253

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(7) PROPERTY AND EQUIPMENT

Property and equipment at cost, consists of the following:

	<u>July 31,</u>	
	<u>2007</u>	<u>2006</u>
	(in thousands)	
Buildings	\$ 19,419	\$ 18,290
Machinery and equipment	29,772	22,360
Leasehold improvements	10,458	6,731
Software	25,335	10,247
Other	9,347	14,195
	<u>\$ 94,331</u>	<u>\$ 71,823</u>
Less: Accumulated depreciation and amortization	(39,224)	(25,803)
Net property and equipment, at cost	<u>\$ 55,107</u>	<u>\$ 46,020</u>

Assets under capital leases which are included in the amounts above are summarized as follows:

	<u>July 31,</u>	
	<u>2007</u>	<u>2006</u>
	(in thousands)	
Buildings	\$ 3,929	\$ 3,659
Machinery and equipment	304	—
Less: Accumulated amortization	(3,568)	(3,006)
	<u>\$ 665</u>	<u>\$ 653</u>

The Company recorded depreciation expense of approximately \$15.0 million, \$11.0 million and \$9.7 million for the fiscal years ended July 31, 2007, 2006 and 2005, respectively. Depreciation expense within the Americas, Europe and Asia regions was approximately \$4.2 million, \$5.3 million and \$5.5 million, respectively for fiscal 2007, \$3.3 million, \$3.6 million and \$4.1 million, respectively, for fiscal 2006 and \$3.5 million, \$3.1 million and \$3.1 million, respectively, for fiscal 2005. Amortization of assets recorded under capital leases is included in the depreciation expense amounts.

(8) GOODWILL AND INTANGIBLE ASSETS

The purchase price of the assets acquired and the liabilities assumed in a business combination is subject to an allocation period in accordance with SFAS 141, "Business Combinations." In connection with the Modus acquisition, the allocation period for all adjustments other than those related to tax loss carryforwards and contingencies expired during the quarter ended October 31, 2005, while the allocation period for tax adjustments will still remain open in accordance with SFAS 109, "Accounting for Income Taxes." During the fiscal year ended July 31, 2007, total purchase accounting adjustments recorded were approximately \$3.0 million. An adjustment of \$1.1 million was recorded related to a tax contingency arising from a tax audit by the local tax authorities in Asia for a period prior to the acquisition of Modus, which was offset by adjustments related to the utilization of pre-acquisition net operating losses in the Americas, Europe and Asia regions of approximately \$3.7 million, \$0.5 million and \$0.6 million, respectively. Additionally, approximately \$0.8 million of goodwill was recognized in Asia as a result of ModusLink acquiring full ownership of the joint venture through which it operated in Japan. ModusLink previously had a 40% interest in the entity.

The carrying amount of goodwill is as follows:

	<u>Americas</u>	<u>Europe</u>	<u>Asia</u>	<u>Total</u>
	(in thousands)			
Balance as of July 31, 2006	\$78,625	\$30,743	\$71,871	\$181,239
Purchase price adjustments from acquisition of Modus	(3,719)	(478)	449	(3,748)
Goodwill from acquisition of Japan-based joint venture	—	—	785	785
Balance as of July 31, 2007	<u>\$74,906</u>	<u>\$30,265</u>	<u>\$73,105</u>	<u>\$178,276</u>

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The components of intangible assets are as follows (in thousands):

	July 31, 2007				July 31, 2006			
	<u>Gross Carrying Amount</u>	<u>Accumulated amortization</u>	<u>Net Book Value</u>	<u>Weighted average amortization period</u>	<u>Gross Carrying Amount</u>	<u>Accumulated amortization</u>	<u>Net Book Value</u>	<u>Weighted average amortization period</u>
Client Relationships	\$20,500	\$ 8,781	\$11,719	7 years	\$20,500	\$ 5,848	\$14,652	7 years
Developed Technology	3,500	3,500	—	3 years	3,500	2,336	1,164	3 years
Trade Names	2,190	2,190	—	3 years	2,190	1,466	724	3 years
Non-competes	400	400	—	1 year	400	400	—	1 year
Total	<u>\$26,590</u>	<u>\$14,871</u>	<u>\$11,719</u>		<u>\$26,590</u>	<u>\$10,050</u>	<u>\$16,540</u>	

Amortization expense for intangible assets for the years ended July 31, 2007, 2006 and 2005 totaled approximately \$4.8 million, \$4.8 million and \$5.2 million, respectively. The amortization of intangible assets for the fiscal year ended July 31, 2007, 2006 and 2005 would have been primarily allocated to selling expenses had the Company recorded the expenses within the functional operating expense categories.

The estimated future aggregate amortization expense for intangible assets as of July 31, 2007, is as follows:

<u>Fiscal Year</u>	<u>Amount</u> (in thousands)
2008	\$2,929
2009	\$2,929
2010	\$2,929
2011	\$2,932

(9) RESTRUCTURING

The Company's restructuring initiatives during the fiscal years ended July 31, 2007, 2006 and 2005 involved strategic decisions to exit certain businesses and to reposition certain on-going businesses of the Company. Restructuring charges consisted primarily of contract terminations, employee severance charges as a result of workforce reductions and facility and equipment charges. The Company records charges related to operating leases with no future economic benefit to the Company as a result of the abandonment of unutilized facilities.

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following tables summarize the activity in the restructuring accrual for the fiscal years ended July 31, 2007, 2006 and 2005:

	<u>Employee Related Expenses</u>	<u>Contractual Obligations</u>	<u>Asset Impairments</u>	<u>Total</u>
	(in thousands)			
Accrued restructuring balance at July 31, 2004	\$ 296	\$ 14,845	\$ —	\$ 15,141
Restructuring liability assumed in conjunction with the Modus acquisition	954	1,927	—	2,881

Restructuring charges	2,495	3,261	158	5,914
Restructuring adjustments	(16)	(92)	(548)	(656)
Cash paid	(6,753)	(11,318)	548	(17,523)
Non-cash adjustments	—	—	(158)	(158)
Accrued restructuring balance at July 31, 2005	<u>\$ 1,409</u>	<u>\$ 17,754</u>	<u>\$ —</u>	<u>\$ 19,163</u>
Restructuring accrual—Modus acquisition	3,504	773	—	4,277
Restructuring charges	5,602	3,622	329	9,553
Restructuring adjustments	(347)	315	—	(32)
Cash paid	(8,647)	(11,786)	—	(20,433)
Non-cash adjustments	—	—	(329)	(329)
Accrued restructuring balance at July 31, 2006	<u>\$ 1,521</u>	<u>\$ 10,678</u>	<u>\$ —</u>	<u>\$ 12,199</u>
Restructuring charges	1,386	3,078	236	4,700
Restructuring adjustments	—	101	(158)	(57)
Cash paid	(1,886)	(4,540)	83	(6,343)
Non-cash adjustments	140	—	(161)	(21)
Accrued restructuring balance at July 31, 2007	<u>\$ 1,161</u>	<u>\$ 9,317</u>	<u>\$ —</u>	<u>\$ 10,478</u>

It is expected that the payments of employee-related charges will be substantially completed by November 30, 2009. The remaining contractual obligations primarily relate to facility lease obligations for vacant space resulting from the current and previous restructuring activities of the Company. The Company anticipates that contractual obligations will be substantially fulfilled by May 2012.

The net restructuring charges for the fiscal years ended July 31, 2007, 2006 and 2005 would have been allocated as follows had the Company recorded the expense and adjustments within the functional department of the restructured activities:

	<u>July 31,</u>		
	<u>2007</u>	<u>2006</u>	<u>2005</u>
	(in thousands)		
Cost of revenue	\$1,081	\$4,930	\$3,315
Selling	400	686	182
General and administrative	3,162	3,905	1,761
	<u>\$4,643</u>	<u>\$9,521</u>	<u>\$5,258</u>

During the fiscal year ended July 31, 2007, the Company recorded net restructuring charges of approximately \$4.6 million. These charges consisted of approximately \$1.4 million relating to a workforce reduction of approximately 91 employees primarily related to the consolidation of facilities in the Netherlands in the Europe region and the elimination of redundant positions related to the Company's hub and spoke initiative from the Americas region as well as the closure or reorganization of certain Utah facilities in the Americas region. Additionally, the Company recorded approximately \$3.2 million relating to early termination charges and unutilized lease facilities for which the Company expects to realize no future economic benefit primarily due to the restructuring activities of the Netherlands facilities in the Europe region as well as the restructuring activities from the Americas region.

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

During the fiscal year ended July 31, 2006, the Company recorded net restructuring charges of approximately \$9.5 million. These charges consisted of approximately \$5.3 million relating to a workforce reduction of 146 employees, primarily due to the elimination of redundant positions in Europe related to the Company's hub and spoke initiative, and in the Americas related to the reorganization of certain operational and sales activities. In addition, the Company recorded approximately \$3.9 million of restructuring charges related to certain contractual obligations and real estate leases in connection with the consolidation of two facilities in the Netherlands and the closure of facilities in Ireland and Scotland as part of the Company's efforts to continue to drive lower costs and operating efficiencies, as well as approximately \$0.3 million relating to the impairment of certain assets no longer in service.

In addition, during the fiscal year ended July 31, 2006, the Company recorded a purchase accounting adjustment to goodwill of approximately \$4.3 million for restructuring activities related to the acquisition of Modus. These restructuring activities occurred primarily in the Americas and Europe regions in the amounts of \$0.4 million and \$3.9 million, respectively. The restructuring in the Americas region was employee severance related in connection with the elimination of redundant positions. The restructuring in Europe primarily related to the closure of the plant in Scotland and consists of approximately \$3.1 million of severance for 130 employees and \$0.8 million relating to unoccupied facilities for which the Company expects to realize no future economic benefits.

During the fiscal year ended July 31, 2005, the Company recorded net restructuring charges of approximately \$5.3 million. These charges consist of approximately \$2.5 million related to a workforce reduction of 135 employees, approximately \$3.2 million relating to unutilized facilities for which the Company expects to realize no future economic benefit and approximately \$0.1 million relating to the impairment of certain assets no longer in service. The Company also recorded an adjustment of approximately \$0.5 million as the result of a gain on the sale of previously impaired assets.

In conjunction with the acquisition of Modus, the Company assumed approximately \$2.9 million of Modus restructuring liabilities. In addition, during the fiscal year ended July 31, 2005, the Company accrued approximately \$13.6 million of restructuring charges in connection with the Company's Modus acquisition. These assumed and accrued charges totaled \$6.4 million, \$9.6 million and \$0.5 million in the Americas, Europe and Asia regions, respectively, and primarily relate to the elimination of excess plant capacity and redundant infrastructure in those regions.

The following tables summarize the restructuring accrual by operating segment and the Other category for the fiscal years ended July 31, 2007, 2006, and 2005:

	<u>Americas</u>	<u>Asia</u>	<u>Europe</u>	<u>Other</u>	<u>Consolidated Total</u>

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(10) @VENTURES INVESTMENTS

Through our venture capital business, @Ventures, we maintain interests in several venture capital funds; CMG@Ventures III, LLC (“CMG@Ventures III”); CMG@Ventures Expansion, LLC (“CMG@Ventures Expansion”); CMGI@Ventures IV, LLC (“CMGI@Ventures IV”); and @Ventures V, LLC (“@Ventures V”). These venture capital funds invest in emerging, innovative and promising technology companies. In addition, we previously maintained interests in CMG@Ventures I, LLC (“CMG@Ventures I”), which was dissolved on July 31, 2006, and CMG@Ventures II, LLC (“CMG@Ventures II”), which was dissolved on July 31, 2007.

CMG@Ventures II was formed during fiscal year 1997. The Company owned 100% of the capital and was entitled to approximately 80% of cumulative net profits of CMG@Ventures II. The remaining interest in these investments was attributed to profit members. CMG@Ventures II did not invest in any companies during fiscal years 2007, 2006 and 2005. During fiscal year 2006, CMG@Ventures II received distributions of approximately \$21.2 million. During fiscal year 2007, CMG@Ventures II received distributions of approximately \$2.5 million.

In fiscal year 1999, CMGI formed the @Ventures III venture capital fund (“@Ventures III Fund”). The @Ventures III Fund secured capital commitments from outside investors and CMGI to be invested in emerging Internet service and technology companies. The @Ventures III Fund consists of four entities, which co-invest in each investment made by the @Ventures III Fund. Approximately 78% of each investment made by the @Ventures III Fund is made by two entities in which CMGI does not have a direct ownership interest, but CMGI is entitled to approximately 0.1% of the capital of each entity as a result of its ownership of an approximately 10% interest in the general partner of each of such entities, @Ventures Partners, III, LLC (“@Ventures Partners III”). The Company committed to contribute up to \$56.0 million to its limited liability company subsidiary, CMG@Ventures III, equal to approximately 20% of total amounts committed to the @Ventures III Fund, of which approximately \$53.8 million has been funded as of July 31, 2007. The Company does not expect to be required to invest the remainder of the committed amount. CMGI owns 100% of the capital and is entitled to approximately 80% of the cumulative net capital gains realized by CMG@Ventures III. @Ventures Partners III is entitled to the remaining 20% of the cumulative net capital gains realized by CMG@Ventures III. The remaining 2% invested in each @Ventures III Fund investment is provided by a fourth entity in which CMGI has no interest. CMG@Ventures III did not invest in any companies during fiscal years 2007, 2006 and 2005.

During fiscal year 2000, CMGI formed an expansion fund to the @Ventures III Fund to provide follow-on financing to existing @Venture III Fund investee companies pursuant to which CMGI committed to contribute up to \$20.1 million of which \$16.8 million has been funded as of July 31, 2007. The Company does not expect to be required to invest the remainder of the committed amount. The @Ventures Expansion Fund has a structure that is substantially identical to the @Ventures III Fund, and CMGI’s interests in this fund are comparable to its interests in the @Ventures III Fund. CMG@Ventures Expansion did not invest in any companies during fiscal year 2005. During fiscal year 2006, CMG@Ventures Expansion invested approximately \$0.1 million in one company and received no distributions. CMG@Ventures Expansion did not invest in any companies during fiscal year 2007, however did receive distributions of approximately \$1.6 million.

Also during fiscal year 2000, CMGI announced the formation of three new venture capital funds: CMGI@Ventures IV, LLC (“CMGI@Ventures IV”), CMGI @Ventures B2B, LLC (the “B2B Fund”) and CMGI @Ventures Technology Fund, LLC (the “Tech Fund”). CMGI owns 100% of the capital and is entitled to a percentage (ranging from approximately 80% to approximately 92.5%) of the net capital gains realized by CMGI@Ventures IV, the B2B Fund and the Tech Fund. During fiscal year 2001, the B2B Fund and Tech Fund were merged with and into CMGI@Ventures IV, creating a single evergreen fund. During fiscal year 2005, CMGI@Ventures IV invested approximately \$0.7 million in one company and received distributions of approximately \$6.4 million. During fiscal year 2006, CMGI @Ventures IV invested approximately \$0.3 million in one company and received distributions of approximately \$15.2 million. During fiscal year 2007, CMGI @Ventures IV invested approximately \$0.3 million in one company and received distributions of approximately \$30.8 million.

During fiscal year 2004, CMGI formed a new venture capital fund: @Ventures V, LLC. CMGI owns 100% of the capital and is entitled to from approximately 91% to 92% of the net profits realized by @Ventures V, LLC. During fiscal year 2005, @Ventures V, LLC invested approximately \$4.1 million in two companies. During fiscal year 2006, @Ventures V, LLC invested approximately \$6.4 million in one new company and two existing portfolio companies. During fiscal year 2007, @Ventures V, LLC invested approximately \$10.9 million in two new companies and two existing portfolio companies. No distributions were received by @Ventures V in fiscal years 2007, 2006 or 2005.

As of July 31, 2007, the Company, through @Ventures, held investments in 13 portfolio companies, although investments in four of these companies are nominal and not viewed as material. From time to time, the Company may make new and follow-on

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

venture capital investments and may from time to time receive distributions from investee companies. As of July 31, 2007, the Company was not obligated to fund any new or follow-on investments.

As of the fiscal years ended July 31, 2007 and 2006, the Company did not have an equity method investment in which the Company's proportionate share exceeded 10% of the Company's consolidated assets or income from continuing operations. For the year ended July 31, 2005 summarized financial information for one equity method investment in which the Company's proportionate share of the investee company exceeded 10% of the Company's consolidated assets or income/(loss) from continuing operations, in accordance with the provisions of Rules 4-08(g) of Regulation S-X, was as follows:

	<u>Year Ended July 31, 2005</u>
	<u>(in thousands)</u>
(Unaudited)	
Revenue	\$ 4,041
Gross profit	\$ 3,861
Loss from continuing operations	\$ (8,761)
Net loss	\$ (8,761)
	<u>July 31, 2005</u>
	<u>(in thousands)</u>
(Unaudited)	
Current assets	\$10,839
Non-current assets	\$ 1,866
Current liabilities	\$ 3,726
Non-current liabilities	\$ 952
Redeemable preferred stock	\$52,259

(11) OTHER GAINS, NET

The following schedule reflects the components of "Other gains, net":

	<u>Years Ended July 31,</u>		
	<u>2007</u>	<u>2006</u>	<u>2005</u>
	<u>(in thousands)</u>		
Gain (loss) on sales of marketable securities	\$ 30	\$ (83)	\$ —
Gain on sale of investments	34,971	27,798	5,157
Foreign currency exchange losses	(2,837)	(2,294)	(3,139)
Gain on sale of building	—	2,749	—
Other, net	(290)	348	596
	<u>\$31,874</u>	<u>\$28,518</u>	<u>\$ 2,614</u>

During the fiscal year ended July 31, 2007, the Company recorded gains from sales of investments of approximately \$1.6 million and \$28.7 million, respectively, resulting from acquisitions of @Ventures portfolio companies, Mitchell International, Inc. and Avamar Technologies, Inc., by third parties. Under the terms of the agreement, Avamar was acquired in a cash transaction valued at approximately \$165.0 million. The Company may also receive up to an additional \$3.3 million of consideration currently held in escrow, subject to the satisfaction of certain indemnification provisions of the transaction. These potential proceeds from escrow have not been included in the recorded gain. Additionally, gains of approximately \$2.5 million, \$0.6 million, \$1.3 million and \$0.3 million, respectively, were recorded to adjust previously recorded gains on the acquisitions of WebCT, Inc., Realm Business Solutions, Inc., Molecular, Inc. and Alibris, Inc. due to satisfaction of conditions leading to the release of funds held in escrow. WebCT, Inc., Realm Business Solutions, Inc., Molecular, Inc. and Alibris, Inc. were @Ventures portfolio companies that were acquired by third parties in previous reporting periods. During fiscal year 2007, the Company incurred foreign currency exchange losses of approximately \$2.8 million related primarily to unhedged foreign currency exposures in Asia.

During the fiscal year ended July 31, 2006, the Company sold its remaining 0.1 million shares of NaviSite, Inc. for a loss of approximately \$0.1 million. Also, during the fiscal year ended July 31, 2006, the Company recorded gains from sales of investments of approximately \$19.4 million, \$3.3 million and \$4.6 million, respectively, resulting from acquisitions by third parties of @Ventures portfolio companies, WebCT Inc., Realm Business Solutions, Inc. and Alibris, Inc. Additionally gains of approximately \$0.5 million were recorded to adjust a previously recorded gain on the acquisition of Molecular Inc., an @Ventures

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

portfolio company, due to satisfaction of conditions leading to the release of funds held in escrow. As of July 31, 2006, the Company was entitled to receive up to \$7.9 million of additional total proceeds from the above portfolio companies, depending on the satisfaction of certain earn-out targets, termination of the indemnification periods, and the release of the shareholder escrow. During fiscal year 2006, the Company incurred foreign currency exchange losses of approximately \$2.3 million related primarily to unhedged foreign currency exposures in Asia. The Company also recognized a gain of approximately \$2.7 million on the sale of a building in Ireland.

During the fiscal year ended July 31, 2005, the Company recorded a \$4.5 million gain as a result of the acquisition by a third party of Molecular, Inc., an @ Ventures portfolio company. As a result of the transaction, the Company received proceeds of \$6.1 million. At the time of the sale, the Company was entitled to receive up to \$3.6 million of additional proceeds, depending on the satisfaction of certain earn-out targets over the two years subsequent to the transaction, termination of the indemnification period, and the release of the shareholder escrow. The Company also realized a gain of \$0.6 million associated with the acquisition by a third party of Classmates Online, Inc., an @ Ventures portfolio company, in December 2004. Additionally, the Company incurred foreign currency exchange losses of approximately \$3.1 million related primarily to unhedged foreign currency exposures in Asia.

(12) BORROWING ARRANGEMENTS

During fiscal 2006, ModusLink entered into a new revolving credit agreement (the “New Loan Agreement”) with a bank syndicate. The New Loan Agreement is a three-year \$60.0 million revolving credit facility, with a scheduled maturity of October 31, 2008. Advances under the New Loan Agreement may be in the form of loans or letters of credit. Outstanding borrowings under the former Loan Agreement have been assumed by the New Loan Agreement. Approximately \$24.8 million of borrowings were outstanding under the facility, and approximately \$0.1 million had been reserved in support of outstanding letters of credit at July 31, 2007. Interest on the revolving credit facility is based on Prime or LIBOR plus an applicable margin (ranging from 1.25% – 1.75%). The effective interest rate was 6.57% and 6.75% at July 31, 2007 and 2006, respectively. The New Loan Agreement is secured by all assets of ModusLink and includes certain restrictive financial covenants, all of which ModusLink was in compliance with at July 31, 2007. These covenants include balance sheet leverage, liquidity and profitability measures and restrictions that limit the ability of ModusLink, among other things, to merge, acquire or sell assets without prior approval from the lenders. CMGI is not a guarantor under the New Loan Agreement.

(13) COMMITMENTS AND CONTINGENCIES

The Company leases facilities and certain other machinery and equipment under various non-cancelable operating leases and executory contracts expiring through December 2019. Certain non-cancelable leases are classified as capital leases and the leased assets are included in property, plant and equipment, at cost. Such leasing arrangements involve buildings and machinery and equipment as noted in Note 12. Future minimum payments, including restructuring related obligations as of July 31, 2007, are as follows:

	<u>Operating Leases</u>	<u>Stadium Obligation</u>	<u>Capital Lease Obligations</u>	<u>Total</u>
	(in thousands)			
For the fiscal years ended July 31:				
2008	\$25,302	\$ 2,400	\$459	\$28,161
2009	19,843	1,600	295	21,738
2010	15,937	1,600	34	17,571
2011	8,682	1,600	—	10,282
2012	3,481	1,600	—	5,081
Thereafter	3,942	4,800	—	8,742
	<u>\$77,187</u>	<u>\$13,600</u>	<u>\$788</u>	<u>\$91,575</u>

Total future minimum lease payments have been reduced by future minimum sublease rentals of approximately \$4.8 million. Capital lease obligations are net of interest of approximately \$0.1 million.

Total rent and equipment lease expense charged to continuing operations was approximately \$25.8 million, \$21.3 million and \$21.1 million for the fiscal years ended July 31, 2007, 2006 and 2005, respectively.

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

In August 2000, the Company announced it had acquired the exclusive naming and sponsorship rights to the New England Patriots' new stadium, for a period of fifteen years. In August 2002, the Company finalized an agreement with the owner of the stadium to amend the sponsorship agreement. Under the terms of the amended agreement, the Company relinquished the stadium naming rights and remains obligated for a series of annual payments of \$1.6 million per year through 2015. The Company applied a discount rate to the future payment stream to reflect the present value of its obligation on the accompanying consolidated balance sheet.

The Company applies the disclosure provisions of FIN No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Guarantees of Indebtedness of Others", an Interpretation of FASB Statements No. 5, 57 and 107 and Rescission of FASB Interpretation No. 34, to its agreements that contain guarantee or indemnification clauses. These disclosure provisions expand those required by SFAS No. 5 by requiring that guarantors disclose certain types of guarantees, even if the likelihood of requiring the guarantor's performance is remote. The following is a description of arrangements in which the Company is a guarantor.

From time to time, the Company provides guarantees of payment to vendors doing business with certain of the Company's subsidiaries or former subsidiaries. These guarantees require that in the event that the subsidiary cannot satisfy its obligations with certain of its vendors, the Company will be required to settle the obligation. Additionally, from time to time, the Company agrees to provide indemnification to its clients in the ordinary course of business. Typically, the Company agrees to indemnify its clients for losses caused by the Company. As of July 31, 2007, the Company had no recorded liabilities with respect to these arrangements.

In 1999, a subsidiary of the Company entered into a facility lease with a term ending in November 2006. The Company issued a guaranty in connection with this lease. The Company divested its interest in the subsidiary in 2002. During the quarter ended October 31, 2006, the Company became aware that this lease had been amended to extend the lease term through November 2016 with cumulative base rent of approximately \$16.0 million. The Company disputes that it has any ongoing liability under this guaranty.

The Company is also a party to litigation from time to time, which it considers routine and incidental to its business. Management does not expect the results of any of such routine and incidental matters to have a material adverse effect on the Company's business, results of operation or financial condition.

(14) STOCK AWARD PLANS AND STOCK-BASED COMPENSATION

Stock Option Plans

The Company currently awards stock options under four plans: the 2004 Stock Incentive Plan (the "2004 Plan"), the 2002 Non-Officer Employee Stock Incentive Plan (the "2002 Plan"), the 2000 Stock Incentive Plan (the "2000 Plan") and the 2005 Non-Employee Director Plan (the "2005 Plan"). Options granted under the 2004 Plan, 2002 Plan and the 2000 Plan are generally exercisable as to 25% of the shares underlying the options beginning one year after the date of grant, with the option being exercisable as to the remaining shares in equal monthly installments over the next three years. Stock options granted under these plans have contractual terms of seven years. The Company may also grant awards other than stock options under the 2004 Plan, 2002 Plan and 2000 Plan.

In December 2005, at the Company's Annual Meeting of Stockholders, the stockholders of the Company approved the 2005 Plan, pursuant to which the Company grants non-qualified stock options to certain members of the Board of Directors. The 2005 Plan replaced the Company's Amended and Restated 1999 Stock Option Plan for Non-Employee Directors ("1999 Plan"). No additional options will be granted under the 1999 Plan; however, all then outstanding options under the 1999 Plan shall remain in effect in accordance with their respective terms. Pursuant to the 1999 Plan, 2,000,000 shares of the Company's common stock were initially reserved for issuance. Up to 2,000,000 shares of common stock may be issued pursuant to awards granted under the 2005 Plan (subject to adjustment in the event of stock splits and other similar events). The 2005 Plan provides that each eligible director will automatically be granted an option to acquire 200,000 shares of Common Stock (the "Initial Option") upon election to the Board. Each director who ceases to be an Affiliated Director (as defined in the 2005 Plan) and is not otherwise an employee of the Company or any of its subsidiaries or affiliates will be granted, on the date such director ceases to be an Affiliated Director but remains as a member of the Board of Directors, an Initial Option to acquire 200,000 shares of Common Stock under the plan. Each Initial Option will vest and become exercisable on a monthly basis as to 1/36th of the number of shares of Common Stock originally subject to the option on each monthly anniversary of the date of grant, provided that the optionee serves as a director on

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

such monthly anniversary date. On the date of each annual meeting of stockholders of the Company, each eligible director who is both serving as director immediately prior to and immediately following such annual meeting, and who has served on the Board for at least six months, will automatically be granted an option to purchase 24,000 shares of Common Stock (an “Annual Option”). Each Annual Option will vest and become exercisable on a monthly basis as to 1/36th of the number of shares originally subject to the option on each monthly anniversary of the date of grant, provided that the optionee serves as a director on such monthly anniversary date. Stock options granted under the 2005 Plan have contractual terms of 10 years.

In December 2004, at the Company’s Annual Meeting of Stockholders, the stockholders of the Company approved the 2004 Plan pursuant to which the Company may grant stock options, stock appreciation rights, restricted stock awards and other equity-based awards for the purchase of up to an aggregate of 15,000,000 shares of common stock of the Company (subject to adjustment in the event of stock splits and other similar events). The maximum number of shares with respect to which stock options may be granted to any one participant under the 2004 Plan may not exceed 6,000,000 shares per calendar year. The maximum number of shares with respect to those awards other than stock options and stock appreciation rights may be granted under the 2004 Plan is 5,000,000 shares.

In March 2002, the Board of Directors adopted the 2002 Plan, pursuant to which 4,150,000 shares of common stock were reserved for issuance (subject to adjustment in the event of stock splits and other similar events). In May 2002, the Board of Directors approved an amendment to the 2002 Plan in which the total shares available under the plan were increased to 19,150,000. Under the 2002 Plan, non-statutory stock options or restricted stock awards may be granted to the Company’s or its subsidiaries’ employees, other than those who are also officers or directors, as defined. The Board of Directors administers this plan, approves the individuals to whom options will be granted, and determines the number of shares and exercise price of each option.

In October 2000, the Board of Directors adopted the 2000 Plan, pursuant to which 15,500,000 shares of common stock were reserved for issuance (subject to adjustment in the event of stock splits and other similar events). The Stockholder’s of the Company approved the 2000 plan in December 2000. Under the 2000 Plan, non-qualified stock options, incentive stock options or restricted stock awards may be granted to the Company’s or its subsidiaries’ employees, consultants, advisors or directors, as defined. The Board of Directors administers this plan, approves the individuals to whom options will be granted, and determines the number of shares and exercise price of each option.

Employee Stock Purchase Plan

On October 4, 1994, the Board of Directors of the Company adopted the 1995 Employee Stock Purchase Plan, as amended (the “Plan”). During fiscal year 2002, the Plan was amended to increase the aggregate number of shares that may be issued from the Plan to 3,000,000 shares. Approximately 640,000 shares are available for future issuance as of July 31, 2007. Under the Plan, employees who elect to participate in the Plan instruct the Company to withhold a specified amount through payroll deductions during each quarterly period. On the last business day of each applicable quarterly payment period, the amount withheld is used to purchase the Company’s common stock at an exercise price equal to 85% of the lower of the market price on the first or last business day of the quarterly period. During the fiscal years ended July 31, 2007, 2006, and 2005 the Company issued approximately 126,000, 206,000 and 220,000 shares, respectively, under the Plan.

Stock Option Valuation and Expense Information under SFAS No. 123(R)

On August 1, 2005, the Company adopted SFAS No. 123(R), which requires the measurement and recognition of compensation expense for all share-based payment awards made to the Company’s employees and directors including employee stock options and employee stock purchases based on estimated fair values. The following table summarizes stock-based compensation expense related to employee stock options, employee stock purchases and nonvested shares under SFAS No. 123(R) for the fiscal years ended July 31, 2007 and 2006, respectively which was allocated as follows:

	Years Ended July 31,	
	2007	2006
	(in thousands)	
Cost of goods sold	\$ 474	\$ 544
Selling	575	666
General and administrative	4,135	5,207
	<u>\$5,184</u>	<u>\$6,417</u>

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Prior to fiscal year 2005, the Company used the Black-Scholes option pricing model to estimate the grant date fair value of stock option awards. For grants subsequent to the adoption of SFAS No. 123(R), the Company estimates the fair value of stock option awards on the date of grant using a binomial-lattice model. The Company believes that the binomial-lattice model is a more accurate model for valuing employee stock options since it better reflects the impact of stock price changes on option exercise behavior. The weighted-average grant date fair value of employee stock options granted during the fiscal years ended July 31, 2007 and 2006 was \$0.63 and \$0.96, respectively, using the binomial-lattice model with the following weighted-average assumptions:

	<u>July 31,</u>	
	<u>2007</u>	<u>2006</u>
Expected volatility	50.68%	79.45%
Risk-free interest rate	4.61%	4.37%
Expected term (in years)	4.12	4.25
Expected dividend yield	0.00%	0.00%

The volatility assumption for fiscal 2007 is based on the weighted average of the most recent volatility measures since the acquisition of Modus on August 2, 2004. The volatility assumption for fiscal 2006 was based on the weighted average for the most recent one year and long term volatility measures of the Company's stock as well as certain of the Company's peers. Prior to August 1, 2005, the Company had used its historical stock price volatility in accordance with SFAS No. 123 for purposes of its proforma information.

The weighted average risk-free interest rate assumption is based upon the interpolation of various U.S. Treasury rates, as of the month of the grants.

The expected term of employee stock options represents the weighted-average period the stock options are expected to remain outstanding and is based on historical option activity. The determination of the expected term of employee stock options assumes that employees' exercise behavior is comparable to historical option activity. The binomial-lattice model estimates the probability of exercise as a function of time based on the entire history of exercises and cancellations on all past option grants made by the Company. The expected term generated by these probabilities reflects actual and anticipated exercise behavior of options granted historically.

As stock-based compensation expense recognized in the accompanying consolidated statement of operations for the fiscal years ended July 31, 2007 and 2006 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based partially on historical experience. In the Company's proforma information required under SFAS No. 123 for the periods prior to August 1, 2005, the Company established estimates for forfeitures.

Stock Options

The status of the plans for the fiscal year ended July 31, 2007 is as follows:

	<u>Number of shares</u>	<u>Weighted- Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term (Years)</u>	<u>Aggregate Intrinsic Value</u>
	(in thousands, except exercise price and years)			
Stock options outstanding, July 31, 2006	17,010	\$1.69		
Granted	4,719	1.50		
Exercised	(979)	0.95		
Forfeited or expired	(1,431)	2.44		
Stock options outstanding, July 31, 2007	<u>19,319</u>	<u>\$1.63</u>	<u>4.50</u>	<u>\$4,598</u>
Stock options exercisable, July 31, 2007	<u>10,283</u>	<u>\$1.74</u>	<u>3.48</u>	<u>\$2,808</u>

As of July 31, 2007, unrecognized stock-based compensation related to stock options was approximately \$6.7 million. This cost is expected to be expensed over a weighted average period of 1.9 years. The aggregate intrinsic value of options exercised during the fiscal years ended July 31, 2007 and 2006 was approximately \$1.1 million and \$1.0 million, respectively.

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Nonvested Stock

Nonvested stock are shares of common stock that are subject to restrictions on transfer and risk of forfeiture until the fulfillment of specified conditions. In connection with the adoption of SFAS No. 123(R) on August 1, 2005, the Company reclassified approximately \$6.2 million of recorded deferred compensation related to unamortized nonvested stock to additional paid-in capital. Nonvested stock is expensed ratably over the term of the restriction period, ranging from one to five years. Nonvested stock compensation expense for the fiscal year ended July 31, 2007 and 2006 was approximately \$1.6 million and \$1.2 million, respectively.

A summary of the status of our nonvested stock for the fiscal year ended July 31, 2007, is as follows:

	Number of shares	Weighted average grant date fair value
	(in thousands)	
Nonvested stock outstanding, July 31, 2006	<u>2,560</u>	\$1.95
Granted	1,325	1.72
Vested	(717)	1.45
Forfeited	<u>(—)</u>	—
Nonvested stock outstanding, July 31, 2007	<u>3,168</u>	\$1.53

The fair value of nonvested shares is determined based on the market price of the Company's common stock on the grant date. The total grant date fair value of nonvested stock that vested during the fiscal years ended July 31, 2007 and 2006 was approximately \$1.1 million and \$4.8 million, respectively. As of July 31, 2007, there was approximately \$5.5 million of total unrecognized compensation cost related to nonvested stock to be recognized over a weighted-average period of 2.2 years.

Pro Forma Information under SFAS No. 123

Pro forma information regarding the effect on net income and income per share if the Company had applied the fair value recognition provisions of SFAS No. 123 for the fiscal year ended July 31, 2005 is as follows (in thousands, except per share amounts):

	July 31, 2005
Net income	\$ 26,525
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards	(23,581)
Add: Total stock-based employee compensation expense included in reported net income	<u>5,700</u>
Pro forma net income	<u>\$ 8,644</u>
Earnings per share:	
Basic—as reported	<u>\$ 0.06</u>
Basic—pro forma	<u>\$ 0.02</u>
Diluted—as reported	<u>\$ 0.06</u>
Diluted—pro forma	<u>\$ 0.02</u>

The fair value of each stock option award was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	Year Ended July 31, 2005
Risk-free interest rate	3.50%
Expected dividend yield	0.00%
Expected volatility	71.20%
Expected term (years)	4.20
Weighted average fair value of options granted during the period	\$ 0.96

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Deferred income tax assets and liabilities have been classified on the accompanying consolidated balance sheets in accordance with the nature of the item giving rise to the temporary differences. The components of deferred tax assets and liabilities are as follows:

	July 31, 2007			July 31, 2006		
	Current	Non-current	Total	Current	Non-current	Total
	(in thousands)					
Deferred tax assets:						
Accruals, reserves and stock based compensation not currently deductible	\$ 2,878	\$ 13,231	\$ 16,109	\$ 8,697	\$ 12,505	\$ 21,202
Tax basis in excess of financial basis of investments in affiliates	—	37,550	37,550	—	54,939	54,939
Net operating loss and capital loss carryforwards	—	1,399,572	1,399,572	—	1,465,968	1,465,968
Total gross deferred tax assets	2,878	1,450,353	1,453,231	8,697	1,533,412	1,542,109
Less: valuation allowance	(1,532)	(1,421,211)	(1,422,743)	(8,697)	(1,518,315)	(1,527,012)
Net deferred tax assets	1,346	29,142	30,488	—	15,097	15,097
Deferred tax liabilities:						
Financial basis in excess of tax basis for intangible and fixed assets	—	(5,988)	(5,988)	—	(7,286)	(7,286)
Undistributed accumulated earnings of foreign subsidiaries	—	(23,459)	(23,459)	—	(10,219)	(10,219)
Total gross deferred tax liabilities	—	(29,447)	(29,447)	—	(17,505)	(17,505)
Net deferred tax asset (liability)	<u>\$ 1,346</u>	<u>\$ (305)</u>	<u>\$ 1,041</u>	<u>\$ —</u>	<u>\$ (2,408)</u>	<u>\$ (2,408)</u>

Subsequently reported tax benefits relating to the valuation allowance for deferred tax assets as of July 31, 2007 will be allocated as follows (in thousands):

Income tax benefit recognized in the consolidated statement of operations	\$ (1,398,530)
Additional paid in capital	(15,649)
Goodwill and other non-current intangible assets	(8,564)
	<u>\$ (1,422,743)</u>

The net change in the total valuation allowance for the year ended July 31, 2007 was a decrease of approximately \$104 million. This decrease is primarily due to the expiration of state net operating losses and the expiration of federal and state capital loss carryforwards. A valuation allowance has been recorded against the gross deferred tax asset in the U.S and certain foreign subsidiaries since management believes that after considering all the available objective evidence, both positive and negative, historical and prospective, it is more likely than not that certain assets will not be realized.

ModusLink has obtained five-year tax holidays for certain of its solution centers in China. These tax holidays were obtained by Modus prior to its acquisition by the Company and remain in effect throughout various dates ending December 2008. These tax holidays are structured such that tax rates are 0% for the first two profitable years and 7.5% for the three year period thereafter. During calendar year 2007, the Chinese government introduced legislation for domestic and foreign companies that will eliminate certain tax holidays effective January 1, 2008. The legislation allows for a transition period for companies with existing holidays whereby the tax rate will increase gradually over a five year period up to a maximum rate of 25%. ModusLink's current tax holidays are expected to expire during calendar year 2008. The Company has recorded its deferred tax assets and liabilities based upon the tax rates expected to be in effect upon recognition.

The Company has net operating loss carryforwards for federal and state tax purposes of approximately \$2.0 billion and \$2.1 billion, respectively, at July 31, 2007. The federal net operating losses will expire from 2016 through 2025 and the state net operating losses will expire from 2007 through 2016. The Company has a foreign net operating loss carryforward of approximately \$68.8 million. In addition, the Company has capital loss carryforwards for federal and state tax purposes of approximately \$1.5 billion. The federal and state capital losses begin to expire in calendar year 2007. The utilization of net operating losses and

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

capital losses may be limited in the future if the Company experiences an ownership change as defined by Internal Revenue Code Section 382. An ownership change occurs when the ownership percentage of 5% or greater stockholders changes by more than 50% over a three-year period.

The Company's ModusLink subsidiary has undistributed earnings from its foreign subsidiaries of approximately \$74.6 million at July 31, 2007, of which approximately \$14.7 million is considered to be permanently reinvested due to certain restrictions under local laws as well as the Company's plans to reinvest such earnings for future expansion in certain foreign jurisdictions. The amount of taxes attributable to the permanently reinvested undistributed earnings is not practically determinable. The Company has recorded a deferred tax liability of \$23.5 million on the remaining \$59.9 million of undistributed earnings that are not considered to be permanently reinvested.

Income tax expense attributable to income from continuing operations differs from the computed expense computed by applying the U.S. federal income tax rate of 35 percent to pre-tax income (loss) from continuing operations as a result of the following:

	Years Ended July 31,		
	2007	2006	2005
	(in thousands)		
Computed "expected" income tax expense	\$ 19,695	\$ 11,361	\$ 3,762
Increase (decrease) in income tax benefit resulting from:			
Reduction of estimated tax liabilities	—	(1,951)	(24,713)
Losses utilized	(16,007)	(11,882)	(5,662)
State income taxes, net of federal benefit	—	332	1,132
Foreign dividends	12,160	7,678	11,346
Foreign Tax Rate Differential	(9,069)	(3,631)	(7,320)
AMT Liability	—	460	—
Other	356	1,413	1,522
Actual income tax expense (benefit)	\$ 7,135	\$ 3,780	\$(19,933)

The calculation of the Company's tax liabilities involves dealing with uncertainties in the application of complex tax regulations in several tax jurisdictions. The Company is periodically reviewed by domestic and foreign tax authorities regarding the amount of taxes due. These reviews include questions regarding the timing and amount of deductions and the allocation of income among various tax jurisdictions. In evaluating the exposure associated with various filing positions, we record estimated reserves for probable exposures. Based on our evaluation of current tax positions, the Company believes it has appropriately accrued for exposures. During fiscal 2006 and 2005 the Company recorded an income tax benefit of \$2.0 million and \$24.7 million, respectively, as a result of a reduction in the Company's estimate of certain tax liabilities that had been included in accrued income taxes in the Company's accompanying consolidated balance sheet.

(16) DEFINED BENEFIT PENSION PLANS

In connection with the Modus acquisition in fiscal 2005, the Company assumed two separately defined pension plans covering certain of its employees in its Netherlands facility and a defined pension plan pertaining to certain of its employees in its Taiwan facility. Pension costs are actuarially determined.

On July 31, 2007 the Company adopted the recognition and disclosure provisions of SFAS 158 "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans" an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS 158 required the Company to recognize the funded status (i.e. the difference between the fair value of the plan assets and the projected benefit obligations) of its benefits plans in the July 31, 2007 balance sheet with a corresponding adjustment to accumulated other comprehensive income. The initial impact of the standard due to unrecognized net actuarial gains and losses is recognized as a component of accumulated comprehensive income. The adoption of SFAS 158 resulted in a net adjustment to accumulated other comprehensive income of approximately \$0.4 million.

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

	(in thousands)	
Projected benefit obligation	\$11,238	\$7,772
Fair value of plan assets	\$ 8,250	\$5,785

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The incremental effect of applying SFAS No. 158 on individual line items in the accompanying consolidated statement of financial position at July 31, 2007 was as follows:

	<u>Pre-SFAS 158</u>	<u>Incremental effect of adopting SFAS 158</u>	<u>Post- SFAS 158</u>
		(in thousands)	
Other long-term liabilities	\$ 12,160	\$(403)	\$ 11,757
Accumulated other comprehensive income	\$ 7,368	\$ 403	\$ 7,771
Total stockholder's equity	\$554,666	\$ 403	\$555,069

Components of net periodic pension costs was as follows:

	<u>Years Ended July 31,</u>		
	<u>2007</u>	<u>2006</u>	<u>2005</u>
	(in thousands)		
Service cost	\$1,061	\$ 921	\$ 499
Interest costs	535	320	232
Expected return on plan assets	(363)	(179)	(167)
Amortization of net actuarial loss	40	110	—
Net periodic pension costs	<u>\$1,273</u>	<u>\$1,172</u>	<u>\$ 564</u>

The amount included in accumulated other comprehensive income expected to be recognized as a component of net periodic pension costs in fiscal 2008 is approximately \$9 thousand related to amortization of a net actuarial gain.

Assumptions:

Weighted-average assumptions used to determine benefit obligations was as follows:

	<u>July 31,</u>	
	<u>2007</u>	<u>2006</u>
Discount rate	5.25%	4.75%
Rate of compensation increase	2.00%	2.00%

Weighted-average assumptions used to determine net periodic pension cost was as follows:

	<u>Years Ended July 31,</u>		
	<u>2007</u>	<u>2006</u>	<u>2005</u>
Discount rate	4.75%	4.75%	4.00%
Expected long-term rate of return on plan assets	4.25%	4.25%	3.50%
Rate of compensation increase	2.00%	2.00%	2.00%

CMGI, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Benefit payments:

The following table summarizes expected benefit payments from the plans through fiscal 2017. Actual benefit payments may differ from expected benefit payments. The minimum required contributions to the plan are expected to be approximately \$1.6 million in fiscal 2008.

	Pension Benefit Payments
	(in thousands)
For the fiscal years ended July 31:	
2008	\$ 73
2009	\$ 71
2010	\$ 82
2011	\$ 96
2012	\$ 112
Next 5 years	\$1,482

To develop the expected long-term rate of return on assets assumption consideration is given to the current level of expected returns on risk free investments, the historical level of risk premium associated with the other asset classes in which the portfolio is invested and the expectations for the future returns of each asset class. The expected return for each asset class was then weighted based on the target asset allocation to develop the expected long-term rate of return on assets assumption for the portfolio.

The defined benefit plans have 100% of its assets invested in bank-managed portfolios of debt securities and other assets. Conservation of capital with some conservative growth potential is the strategy for the plans.

(17) COMPREHENSIVE INCOME

The components of accumulated other comprehensive income, net of income taxes, are as follows:

	July 31,		
	2007	2006	2005
	(in thousands)		
Net unrealized holding gains (losses)	\$ 733	\$2,328	\$ (33)
Cumulative foreign currency translation adjustment	6,635	3,961	2,362
Minimum pension liability adjustment	—	—	(338)
Impact of adoption of SFAS No. 158	403	—	—
Accumulated other comprehensive income	<u>\$7,771</u>	<u>\$6,289</u>	<u>\$1,991</u>

(18) ALLOWANCE FOR DOUBTFUL ACCOUNTS

The allowance for doubtful accounts consisted of the following:

	July 31,		
	2007	2006	2005
	(in thousands)		
Balance at beginning of year	\$1,123	\$ 2,107	\$ 573

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

(19) SUBSEQUENT EVENTS

In September 2007, the Company's Board of Directors authorized the Company to proceed with a 1 for 10 reverse stock split, which had been approved by the Company's stockholders at the Annual Meeting of Stockholders on December 6, 2006. CMGI's common stock will begin trading at the split-adjusted level on November 1, 2007. For 20-trading days following the split, CMGI's common stock will trade under the trading symbol "CMGID". After the 20-trading day period, CMGI's common stock will resume trading under the symbol "CMGI".

The number of shares of the Company's common stock issued and outstanding will be reduced from approximately 489 million shares as of September 25, 2007, to approximately 48.9 million shares post-split. No fractional shares will be issued in connection with the reverse stock split. CMGI shareholders who would be entitled to fractional shares will receive cash payments in lieu of receiving fractional shares.

The Company's historical earnings per share on a proforma basis, assuming the reverse split had occurred on August 1, 2004, would be as follows (unaudited):

	<u>Years Ended July 31,</u>		
	<u>2007</u>	<u>2006</u>	<u>2005</u>
Basic earnings per share:			
Earnings from continuing operations	\$1.01	\$ 0.59	\$ 0.65
Income (loss) from discontinued operations	0.01	(0.28)	(0.09)
Earnings available to common stockholders	<u>\$1.02</u>	<u>\$ 0.31</u>	<u>\$ 0.56</u>
Diluted earnings per share:			
Earnings from continuing operations	\$1.01	\$ 0.59	\$ 0.63
Income (loss) from discontinued operations	0.00	(0.28)	(0.08)
Earnings available to common stockholders	<u>\$1.01</u>	<u>\$ 0.31</u>	<u>\$ 0.55</u>

In September 2007, the Company's Board of Directors also authorized the repurchase of up to \$50.0 million of the Company's common stock from time to time on the open market or in privately negotiated transactions over the next 18 months. The timing and amount of any shares repurchased will be determined by the Company's management based on its evaluation of market conditions and other factors. Repurchases may also be made under a Rule 10b5-1 plan, which would permit shares to be repurchased when the Company might otherwise be precluded from doing so under insider trading laws. The repurchase program may be suspended or discontinued at any time. Any repurchased shares will be available for use in connection with the Company's stock plans and for other corporate purposes. The repurchase program will be funded using the Company's working capital.

ITEM 9.— CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A.— CONTROLS AND PROCEDURES

Disclosure Controls and Procedures. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective in ensuring that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that the information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting and Report of Independent Registered Public Accounting Firm. Management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934 as a process designed by, or under the supervision of, the Company's principal executive and principal financial officers and effected by the Company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and

Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of July 31, 2007. In making this assessment, the Company's management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework.

Based on our assessment, management concluded that, as of July 31, 2007, the Company's internal control over financial reporting is effective based on those criteria.

The Company's independent registered public accounting firm, KPMG LLP, has issued an audit report on our assessment of the Company's internal control over financial reporting and is included below.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during our fourth quarter of fiscal 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
CMGI, Inc.:

We have audited CMGI, Inc.'s internal control over financial reporting as of July 31, 2007, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). CMGI, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Management's Report on Internal Control Over Financial Reporting*. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, CMGI, Inc. maintained, in all material respects, effective internal control over financial reporting as of July 31, 2007, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of CMGI, Inc. as of July 31, 2007 and 2006, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years in the three-year period ended July 31, 2007, and our report dated October 15, 2007 expressed an unqualified opinion on those consolidated financial statements.

Boston, Massachusetts
October 15, 2007

ITEM 9B.— OTHER INFORMATION

None.

PART III

ITEM 10.— DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Incorporated by reference to the portions of the Definitive Proxy Statement entitled “Proposal I—Election of Directors,” “Proposal I—Election of Directors—Corporate Governance and Board and Committee Meetings,” “Additional Information—Management,” “Additional Information—Section 16(a) Beneficial Ownership Reporting Compliance” and “Additional Information—Audit Committee Financial Expert.”

During the fourth quarter of fiscal 2007, we made no material changes to the procedures by which stockholders may recommend nominees to our Board of Directors, as described in our most recent proxy statement.

The Company has adopted a Code of Business Conduct and Ethics that applies to all directors, officers and employees of the Company, including the Company’s principal executive officer, and its senior financial officers (principal financial officer and controller or principal accounting officer, or persons performing similar functions). A copy of the Company’s Code of Business Conduct and Ethics is filed with or incorporated by reference in this report.

ITEM 11.— EXECUTIVE COMPENSATION

Incorporated by reference to the portions of the Definitive Proxy Statement entitled “Additional Information—Executive Compensation” (including all applicable subsections and executive compensation tables included therein), “Additional Information—Director Compensation,” “Additional Information—Report of Human Resources and Compensation Committee,” “Additional Information – Compensation Discussion and Analysis,” “Additional Information – Compensation Committee Interlocks and Insider Participation” and “Additional Information—Employment, Termination of Employment and Change-In-Control Agreements.”

ITEM 12.— SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information regarding the security ownership of certain beneficial owners and management is incorporated by reference to the portion of the Definitive Proxy Statement entitled “Security Ownership of Certain Beneficial Owners and Management.”

Equity Compensation Plan Information as of July 31, 2007

The following table sets forth certain information regarding the Company’s equity compensation plans as of July 31, 2007:

<u>Plan Category</u>	<u>(a)</u>	<u>(b)</u>	<u>(c)</u>
	<u>Number of securities to be issued upon exercise of outstanding options, warrants and rights</u>	<u>Weighted-average exercise price of outstanding options, warrants and rights</u>	<u>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))</u>
Equity compensation plans approved by security holders	14,692,041	\$1.68	15,904,059(1)
Equity compensation plans not approved by security holders	<u>4,626,464</u>	<u>\$1.47</u>	<u>7,331,731</u>
Total	19,318,505	\$1.63	23,235,790

(1) Includes 640,218 shares available for issuance under the Company’s Amended and Restated 1995 Employee Stock Purchase Plan, as amended.

A description of the material features of our 2002 Non-Officer Employee Stock Incentive Plan, which was adopted without the approval of our security holders, is incorporated herein by reference to Note 14 of our accompanying consolidated financial statements included in Item 8 herein.

ITEM 13.— CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Incorporated by reference to the portions of the Definitive Proxy Statement entitled “Additional Information—Certain Relationships and Related Transactions,” and “Proposal I – Election of Directors – Independence of Members of Board of Directors.”

ITEM 14.— PRINCIPAL ACCOUNTING FEES AND SERVICES

Incorporated by reference to the portion of the Definitive Proxy Statement entitled “Additional Information—Independent Auditors’ Fees” and “Additional Information—Audit Committee Policy on Pre-Approval of Services of Independent Registered Public Accounting Firm.”

PART IV

ITEM 15.— EXHIBITS, FINANCIAL STATEMENT SCHEDULES

Financial Statements.

The financial statements listed in the Index to Consolidated Financial Statements are filed as part of this report.

Financial Statement Schedules.

All financial statement schedules have been omitted as they are either not required, not applicable, or the information is otherwise included.

Exhibits.

The exhibits listed in the Exhibit Index immediately preceding such exhibits are filed with or incorporated by reference in this report.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
